Pilot Project Greeted Favorably

. . . Eastridge Completes First Year Of 'Differentiated Staffing'

(EDITOR'S NOTE: This is the first of two articles on a pilot project in differentiated staffing at Eastridge Elementary School.)

By MILAN WALL
Star Staff Writer

Lincoln's Eastridge Elementary School doesn't look any different from other public schools from the outside.

Nestled in a low area at 6245 L, the building is a long, one-story brick structure that serves a rather stable east Lincoln neighborhood.

But inside it's a different picture — there are no "rows" of desks in the rooms and some rooms are almost devoid of furniture; teachers may be found one, two, three or more to a room at time during the day; children hustle back and forth through the long corridor going in and out of doors that never close.

What makes Eastridge unique is that it is just completing its first year as the center for a pilot project in "differentiated staffing," a comparatively new concept in the assignment of teachers and organization of classes.

And one word — success — is the way most people The Star contacted chose to describe the experiment.

Favorably Received
"Changes in school organization and staff use," said Eastridge Principal Inez Baker, "have been favorably received by students, staff and parents."

"I think it's worked better than what my anticipation was," said David Rutledge, an Eastridge teacher who helped design the plan.

"We were impressed by what we saw," was the comment from Southeast High Principal Wesley Lauterbach, who chairs a joint school district-Lincoln Education Association committee on differentiated staffing.

'Very Successful'

And although Supt. John Prash said he would prefer not to "jump at any conclusion," he feels the plan has been "very successful" for the one school.

The Eastridge plan is based on a team teaching approach, with three teams of 95 to 125 students and four teachers each.

In addition, each team is served by an associate teacher, a part-time professional whose services free the team members for joint planning time.

A non-professional aide and student teachers fill out each of the teams.

Led By Coordinator
The plan is directed by a coordinator and one member of each team is designated as the team developer or leader.

The school has worked to achieve an "open concept" which allows children to study in various rooms and in the media center.

And although independent study has been emphasized more than previously,

Eastridge's 333 students may from time to time hear large group lectures, work with one or more teachers in small groups, or study entirely on their own.

"The focus is on the child with the entire building comprising the learning center," Miss Baker explained.

"Throughout the day children may receive individual or group assistance when necessary and are allowed to explore a follow through on individual interests."

Miss Baker said she believes "many kids have grown this year."

"The challenge is before him," she said. "Then it's his job to work on it and get it done."

"If you say 'I trust you will get the job done,' they rise to the occasion," Rutledge said of his fifth and sixth graders.

And out of 125 students in his team, he said, "five or less have taken advantage of the situation."

Like Freedom
"I like the freedom quite a bit," said 8-year-old John Link as he busied himself with math problems during a half-hour free

time period.

"The children are higher motivated than ever before," said Mrs. Henry Cox. "By the way," she added, "I worked harder than ever before."

Miss Baker said both teachers and students have gained from an organization which allows several teachers to work with each student.

That pattern, she said, has been especially important for the "atypical student" who is helped by opportunities for personal, special interest choices.

Hard work
She said the year "has been nothing but hard work, but it's worth it" and adds the school is going full steam ahead to refine the plan next year.

"It is my observation," she said in a report "in the first year, 'that we have built an environment that enhances the child's sense of identity, clarifies his self concept and builds his self-esteem.'"

"Best of all," she concluded, "boys and girls are communicating with their peers and with adults."

Tornadoes Skip Across State

Tornadoes were reported over a wide area of central Nebraska Sunday afternoon, but only one injury and only scattered light property damage was reported.

Several twisters were sighted in the Lexington area — primarily in the Bullmead Point and Collins Point areas on Lake Johnson, a summer recreation area.

One garage was destroyed, a trailer house upset and several other trailer houses damaged around the lake, according to a spokesman for the Lexington Police Dept.

A Grand Island woman, Mrs. Sam Eilers, received a wrist injury when the trailer house was overturned. Her small child was reported not injured.

A power outage occurred when a tornado touched ground five miles southwest of Lexington.

Another tornado stayed on the ground for nearly one-half mile north of Maywood, but little damage was reported.

A twister was sighted near Benkelman at mid-afternoon, and another touched down 10 miles southwest of Imperial at about the same time.

The Chase County Sheriff's Dept. reported little property damage from the twister near Imperial.

There were also reports of twister sightings in the McCook and Wameka areas, but no damage was reported.

Other funnels were sighted southeast of Minden, west of Ravenna, north of Elm Creek and southwest of Ansley.

Bradshaw recorded 1.48 inches of rain in 20 minutes Sunday evening, while Fairmont received 1.25 inches in the same length of time.

Soviet Ships Ahead

. . . OF MARINER

Cape Kennedy, Fla. (AP) — America's Mariner 9 successfully rocketed toward Mars Sunday to join two Russian spaceships in man's search for life and scientific secrets on the puzzling red planet.

The interplanetary explorer started its long journey on the power of an 11-story-tall Atlas-Centaur rocket that thundered aloft from Cape Kennedy at 6:23 p.m. EDT.

Payload Released
Fourteen minutes after the fiery liftoff, the two-stage rocket released the camera-carrying payload, thrusting it at 24,600 miles an hour toward its target, 63 million miles away.

The National Aeronautics and Space Administration reported the early phase of the mission went perfectly and instruments aboard the payload were operating.

NASA spokesman Jack King said the craft's power-producing solar panels had unfolded and "all looks well with the flight."

"The trajectory is very good," King added.
The successful liftoff contrasted with the launching of Mariner 8 three weeks ago. The second stage of that Atlas-Centaur went out of control and rocket and payload plunged into the Atlantic Ocean.

Mariner 9, as planned, was not on a direct course toward Mars. Its path will be adjusted toward the planet in four or five days when a ground signal will trigger an on-board motor. That will be done after computers calculate the precise speed and position.

If all goes well, Mariner 9 will trace a long arcing path totaling 247 million miles and fire into orbit around Mars on Nov. 14, sweeping to within 750 miles of the surface.

Race Toward Mars
Russia's Mars 2 and Mars 3 ships already are speeding toward the planet, U.S. tracking experts believe the American craft, traveling a slightly different and shorter course, has a chance of beating both Soviet vehicles to the target.
They estimate Mars 2 will arrive in mid-November and Mars 3 later that month.

The Russian payloads, each weighing more than 10,000 pounds, are considerably heavier than Mariner's 2,200 pounds, and there is speculation they may attempt to land capsules or roving vehicles on the Martian surface. The Soviets have been silent on the goals of their flights.

National Aeronautics and Space Administration officials are expected soon to approach Soviet scientists on the possibility of coordinating the three missions to receive the greatest possible scientific knowledge.

Hoover May Stay Until New FBI Building Done

Washington (AP) — Just now peeking over the sidewalk of Pennsylvania Avenue, J. Edgar Hoover's new FBI headquarters is \$70 million, seven stories and three years away from completion.

Some observers believe the construction schedule is the key to the FBI director's retirement date, contending he will not step down until his agency has moved into the new headquarters.

When it is finished, the block-square structure will be the most expensive government building ever commissioned in the United States.

Completion date most likely will be in June of 1974 when Hoover will be six months short of 80 years old.

Subject to any increased construction costs — which have been rising about 1% a month — the total price tag on the building now is \$102.5 million.

It includes around \$18 million for land acquisition and preparation, designing and engineering. Should there be further construction delays, the price might go even higher.

When the plan for a new FBI headquarters was first approved by Congress in 1962, the building was to have cost \$60 million.

"An estimate prepared in 1962 is not worth the paper it's written on," conceded an official of the General Services Administration, the federal government's housekeeping agency.

Even though approved in 1962, ground for the building was not broken until five years later. And GSA officials said there now have been several changes in design and in the FBI's requirements for the building.

Work on the excavation and the first of three below-ground levels began in late 1967. This was completed July 29, 1969, at a cost of nearly \$9 million.

The next phase, which brings the substructure to ground level, began in August of last year. It is scheduled to be finished on June 14, at a cost of nearly \$5 million.

Then, the superstructure of buff-colored concrete is to begin rising — up to seven stories along its Pennsylvania Avenue front and up to

11 stories on the back side, along E Street.

The site is directly across Pennsylvania Avenue from the FBI's present headquarters in the Justice Department.

Bids for the third and final stage of the building were opened by the GSA Thursday. The apparent low bid of \$69.8 million was submitted by Blake Construction Co., Inc., of Washington, D.C., which has the present contract to bring the substructure to ground level.

Before the FBI building, the most expensive government building in the nation was the five-year-old \$87-million Rayburn Building, which houses officers for members of the House of Representatives. When it was commissioned in 1958, the Rayburn building was expected to cost \$64 million.

Blaze In Atlanta Kills 4 Firemen

Atlanta, Ga. (AP) — Firemen removed the bodies of four comrades Sunday from the remains of a downtown Atlanta restaurant ripped by explosion during a fire late Saturday night.

Killed in the blast were fire Capt. L. B. Grady and firemen V. J. Crider, C. D. Fernandez and H. Howard Beck.

Another 22 firemen were taken to Grady Hospital for treatment of injuries suffered in the explosion. Of the eight admitted to the hospital, all are listed in satisfactory condition.

At least one bystander also suffered minor injuries.

The firemen reportedly had entered the three-story building housing Davis Brothers restaurant and were trying to break through from the first floor to the fire in basement, when the explosion occurred.

Fire Chief P. O. Williams said the blast resulted from a back draft that built up as firemen tried to smother the basement fire with foam.

Surprisingly Alert Mrs. Amanda Gammel Credits 'God's Will' For Her 105 Years

By MAXINE WOLF
Star Staff Writer

"I think this birthday may be even better than the last one," commented a surprisingly alert little lady Sunday on the eve of her 105th birthday anniversary.

She is Mrs. Amanda Gammel, a resident of Lancaster County since 1880.

When asked to what she credits her long life, she quickly replied "It's God's will."

Rural Lincoln

Born near Canton, Ill., May 13, 1866, she lived in Virginia and Pennsylvania before coming to Nebraska with her parents at the age of 14. The family settled on a farm north of Lincoln.

Mrs. Gammel thinks "Nebraska's a pretty good" state and recalls shucking corn and grain and mowing alfalfa with a team in her younger days. After her marriage to James Gammel, she and her husband lived on several farms in Lancaster County, moving into Lincoln in 1918.

What does she think of young people today? "They have lots of fun," she answered.

Dresses For Girls

In reply to a question of what she thought about

putting man on the moon, Mrs. Gammel said, "God must have been with them" or that wouldn't have happened.

The observant lady also expressed an opinion on girls' mini skirts and pantsuits. "I don't like them," she stated. Girls are "supposed to wear dresses," she said, adding that she doesn't "believe in copying men's clothes."

Queried on how she likes being a woman, the pert lady smiled and said, "It wasn't my choice." Although confined to a wheelchair, she takes a great deal of pride in her appearance.

Known As 'Grandma'

She is known affectionately as "grandma" to those who help care for her at Tabitha Home, where she has resided since 1962. After the death of her husband in 1952, she maintained her own home until she was 93 years old. She is a member of the Christian Missionary Alliance Church.

Mrs. Gammel has outlived three of her four children. As the head of five generations, she has a daughter, Mrs. Ada Smith of Lincoln; seven grandchildren, 10 great-grandchildren and nine great-great-grandchildren.

There were five generations represented at a family party Sunday afternoon at the home of Mrs. Reed Embree, a granddaughter of the honoree.

Messages of congratulations to the woman who is older than the state in which she lives included a card from President Nixon.

Grass Breakdown Causes Green Stuff

By DOMINICK COSTELLO Farm Editor

What makes all that green stuff in the Salt Valley lakes? Farmers' fertilizer, pollution and chemicals have been blamed, but University of Nebraska engineers now believe it is grass.

Grass is green all right, but the cause of plant foods getting into the water is believed to be the breakdown of the grasses during the winter months. Grass releases plant foods which are absorbed by spring runoff and carried into the streams and lakes.

"It is probably good for raising fish, but it sure makes the lakes unfit for swimming," said Dr. Howard Wittmuss, NU associate professor of agriculture engineering.

Terrace Water

Samples of water, collected for an engineering experiment to evaluate the amount of water held on the land from several different kinds of terraces, are being used to determine what types of plant foods are carried into streams and lakes.

"We have learned that you have to thoroughly clean plastic water containers with acid or you get a false reading from some of the ingredients contained in the plastic," Wittmuss said.

The water is collected by battery-powered, automatic samplers which run when triggered by a switch attached to a float. The device also records the amount of water running off the different types of terraces.

Soil Loss Reduced

"We have been able to reduce soil loss by using steep, grass back terraces and minimum tillage to the point where the loss is actually lower from continuously planted corn ground than it is from permanent grassland," Wittmuss explained.

The engineers have several experiments with terraces on the Rogers memorial farm near Eagle. Some have grass waterways and others have tile inlets that let the water out of the terrace very slowly.

"The tile inlets allow an inch of rain to run off in 24 hours," he said, "with the inlets designed so that each terrace is drained slowly at the same speed."

Geysers Developed

Early efforts at tile drainage had drained the top terrace first with some installations developing geysers at lower levels.

The water running from the tiles after recent rains was nearly clear and appeared to be drinkable. Water from the grassed waterways appeared to be muddy; however, this was in part due to poor maintenance of the grassed area for water runoff.

Data collected by the sampling stations indicate that a four ton soil loss is not unusual from plowed land that is not terraced. The steep back terraces, coupled with a minimum tillage planting method that leaves the trash on the surface, have virtually eliminated soil loss.

Permanent Plot

"We consistently get a greater soil loss from a permanent grass plot than we do from properly farmed terraces," Wittmuss said.

Would you rather have a new one? Then sell used household goods with a Journal-Star Want Ad.

The tile method of drainage from the terraces, which are in effect a long dam to hold rain water, uses less land than the grassed method of letting the water out of the dams. The tile method does cost about 50% more to install.

Installation costs are reduced by the use of a tile ditcher and a computer to check the plans for designing the terrace system.

Straight Slope

The steep back terraces are farmed on the front or uphill sides and have an almost straight up and down grassed back slope.

Visitors always are welcome at the Rogers farm and there may be a field day on the farm later this year.

Data from the spring rains has not been tabulated yet due to the spring exam work loads at the university. However the data is not expected to differ greatly from data already obtained except in the amount of runoff from the heavy rains.

The Rogers farm also is used by the poultry scientists at the university in their work with turkeys.

STORY AT LEFT DEVICE . . . measures water flow from terraces for Wittmuss.

Spotlight on Agriculture

By DOMINICK COSTELLO

The refuse act of 1899 is being revised as a method of dealing with the pollution problems posed by industry, and it could affect many segments of agriculture.

The law was originally designed to keep people and industry from dumping anything into rivers which would fowl out streamboats and other river transports.

The law provides a \$2,500 fine if a river polluter is caught, and the person doing the finger-pointing gets half of the fine. This has led to some bounty hunting among the so-called ecologists.

Current interpretations of the law seem to hold every industry guilty which dumps refuse into any creek or dry run that might eventually lead to the Missouri or the Mississippi.

This, of course, includes the runoff from all types of feedlots—especially since under current study are definitions which describe any group of pigs, chickens, cattle, sheep and other animals confined in a building or a corral as an industry.

Education Work

The Army Corps of Engineers has responsibility for enforcing the law with some guidance from the new Environmental Protection Agency (EPA). The Department of Agriculture is working overtime trying to educate scientists and generals on how the rules affect farmers.

The first effort produced an eight-page form and a 100-page booklet that told farmers how to obtain a three-year permit to discharge anything into a navigable stream or any tributary. The permit costs \$100.

The permit form required a chemical analysis of the sewage from the feedlot or plant and an engineering study to count the number of gallons and the amount of material in the liquid. The analysis usually costs about \$200 and the study can run as high as \$1,000.

Resulting Howl

The resulting howl from the hinterlands caused the form to sink to five pages and a further shrinkage is possible.

The EPA rules which try to keep animal waste from leaving the dairy barn and the pure food department's attempts to keep manure away from the dairy barn are bound for a sizable clash.

The EPA expects to add 400 people under the program which means there will be eight in each state. This is not nearly enough people to inspect the industry much less the feedlots in each state.

Possible Guidelines

When one considers the thousands of feedlots, hog pens and chicken houses in the 50 states, he realizes there are not enough people in the entire Army, much less the Corps, to inspect the potential polluters in industry and agriculture.

Possible guidelines for the enforcers include suggestions that the inspections be limited to those feedlots with at least a capacity of 1,000 animal units or steer equivalents.

This figure is approximately equivalent to 700 dairy cows, 290,000 broilers, 180,000 laying hens, 55,000 turkeys, 4,500 butcher hogs, 35,000 feeder pigs, 12,000 sheep and an unbelievable number of hampsters.

The holding ponds and other structures would be designed to handle any rainfall that would fall in a normal ten-year period.

This is a similar to the plans used by the Soil Conservation Service in developing plans for small watershed projects.

If there should be a really large rainfall and the holding ponds did overflow, the stream likely would be swollen as well, reducing the danger of a fish kill and diluting any pollution.

Enforcement Set

At this point, the bill is clearly a law and the administration

Accomplishing all of this before July 1, 1971, is not realistic.

In the meantime, a state law on pollution has been passed and the extension service has published a pamphlet on solving the livestock pollution problem. Get one from your county agent. It will give you something to read while you worry.

☆☆☆

Milk production has risen for the past 16 months causing a concern about what will happen to prices and to usage. The price support is on butter and manufacturing milk and not on the bottled milk familiar to most consumers.

☆☆☆

The corn carry-over is pegged at 700 million bushel, 1/3 below the 1964-1968 average. Grain sorghum is down 3/4 from normal, barley is below last year and oats are about the same. Some storage is available for the new crops, but transporting the grain to storage is worrying farmers, elevator operators and the railroads.

☆☆☆

The recession and uncertainty on the current fashion scene are blamed for low wool prices. Factories are afraid to stockpile garments that possibly may not be saleable to the independent, modern female who refuses to be dictated to by the industry.

intends to enforce it. It is unlikely that a hearing on the legislative intent of the 1899 congress would produce any reliable witnesses.

With the interest in the ecology, any attempt to repeal the law would be political suicide for a congressman.

The goal of zero pollution in streams is attainable, however, how to reach this goal and how to pay its cost still remains unanswered. If reasonable people work together in a reasonable manner, there can be livestock, people, industry and clean water at the same time.

Antiwar Veterans Arrested

Lexington, Mass. (AP) — More than 100 police officers equipped with riot gear broke up a peaceful encampment, of antiwar Vietnam veterans and others Sunday on Lexington Green, the Revolutionary War battleground.

Some 400 persons were arrested on charges of violating park regulations and disorderly conduct. The disorderly conduct charges later were dropped.

Police moved to the green about 3 a.m., five hours after the park's curfew. They warned protesters to leave or face arrest. Police and witnesses said the arrests were made peacefully and there was no resistance.

Most of those arrested refused to post bail and were arraigned at Concord District Court. The majority did not contest the

park violation charges and paid \$5 fines.

About 200 of the Vietnam Veterans Against the War plus several hundred more sympathizers had marched from Concord to Lexington Saturday afternoon.

It was to have been the first leg of a weekend hike from Concord to Boston, retracing in reverse Paul Revere's midnight ride when he warned of the coming of the British in 1775.

'Corrupting Ferment'

Vatican City (AP) — Pope Paul VI charged that some books and other printed matter in circulation are creating "corrupting ferment" in society and "corroding the highest human values."

Sheriff: 'More Bodies Out'

Yuba City, Calif. (AP) — The sheriff said Sunday night no new graves had been discovered during a 7½-hour search of a peach orchard in the area where 23 transients have been found stabbed and hacked to death. He said, however, "there are more bodies out there" and announced the search area would be expanded.

Sheriff Roy Whiteaker emerged from the gravesite area along the Feather River and said his men dug up three possible gravesites — indicated by depressions in the soft earth — but found no bodies.

He said a force of 25 men will fan out Monday across neighboring ranches to search for possible graves. A farm labor contractor has been charged with 10 of the killings.

"I don't believe the end is in sight. I think there are more bodies out there."

He said he suspects there are four or five more graves at sunken areas of the J. L. Sullivan ranch where bodies of 21 drifters or itinerant farm workers have been discovered. But searchers will have to wait until eight to 12 inches of irrigation water flooding the land recedes.

He said one of the potential gravesites there may be dry enough to dig "in a few days," but the others will be too muddy for at least a week.

He said deputies completed a "foot-by-foot search" of the Sullivan ranch except for the flooded northeast corner.

Searchers will scour adjoining orchards "because they are in such close proximity and such easy access" to whoever buried

the bodies on the Sullivan ranch, the sheriff said.

How large an area will be searched? "I don't have any idea. We'll see what we find," said Whiteaker, who has been on duty almost constantly since the first body was found 11 days ago.

Juan V. Corona, 37, a farm labor contractor charged with 10 of the killings, was moved from the Sutter County Jail to the new Yuba County Jail across the

river at Marysville. He has not yet been charged with any other crimes.

Corona's brother, Pedro, Mrs. Candice Jallisco, Meador, and others were with him when he was taken to the jail to keep a p

War Hero On Mission

Atlanta, Ga. (AP) — An airplane carrying Audie Murphy, the most decorated U.S. soldier of World War II, and four other men has been missing since Friday on a flight from Atlanta to Martinsville, Va., the Federal Aviation Administration said Sunday.

The plane, a twin-engine Aero Commander, left Peachtree-Dekalb airport in Atlanta Friday morning and was due in Martinsville at 11:15 a.m. the same day, the FAA said.

Murphy was going to Martinsville to inspect a plant there with the idea of investing in Modular Properties, an Atlanta based firm which specializes in factory-built structures such as homes and motels.

In addition to Murphy, those aboard the plane were identified as Claude Crosby, president of Modular Management, a subsidiary of Modular Properties; Jack Littleton, representing a group of investors from California; Raymond Prater, a Chattanooga, Tenn., attorney repre-

New York Times News Summary

Hamilton, N.Y. — Soon after Secretary of State William P. Rogers finished a wide-ranging defense of the administration's foreign policy at the commencement exercises of Colgate University, more than a third of the graduating class stood up and pledged not to accept a combat role in Indochina if drafted. Hundreds of parents, faculty members and visitors also stood in sympathy with them.

Russian Orthodox Church Meets

Moscow — A special council of the Russian Orthodox Church met in a monastery near

Moscow to select a new patriarch for the church's 40 million followers. The previous head of the church, Patriarch Alexis, had ruled in close collaboration with Soviet leaders for 25 years, and the council in one of its first acts pledged its loyalty to the Soviet government.

Mariner 9 On Way To Mars

Cape Kennedy, Fla. — Mariner 9 successfully began a five-and-a-half month journey toward Mars with a launch from Cape Kennedy, Fla. The unmanned American probe joins two Soviet spacehips in an attempt to uncover evidence of life and scientific secrets on Mars. Only three

weeks ago, Mariner 8 — with a similar mission — failed shortly after its lift-off. (More on Page 1.)

Sheriff Expects More Bodies

Yuba City, Calif. — As Juan V. Corona, the suspect in the mass slayings in Yuba City, was moved to a larger jail "for security purposes," sheriff's deputies continued to dig along river banks where 23 bodies of transient farm workers have been recovered so far. Sheriff Roy Whiteaker said he thought more bodies would be found in depressions and indentations in fruit orchards along the river. (More on Page 2.)

Children's Programs Emphasized

New York — Officials of the major commercial and public television networks were said to be engaged in an unprecedented spate of creativity involving children's programs. The more prestigious programs are being improved, and cartoon shows are being upgraded. Also unprecedented is the criticism of the programs by parents and civic groups.

N.Y. Tenants Group Vowed

New York — Since the Legislature's suggestion that landlords police themselves under the new

law decontrolling all vacant city apartments was "just a grim joke," Commissioner Benjamin Altman of the city's Department of Rent and Housing Maintenance said, he was forming a citywide tenants' group to fight back against any landlords who harass their tenants.

Free Heroin Said 'Cruel Hoax'

New York — The recommendation by the mayor's Narcotics Control Council that the city experimentally provide heroin to about 500 addicts undergoing rehabilitation was called a "cruel hoax" and a "vicious conspiracy" by Rep. Charles B. Rangel.

Grass Breakdown Causes Green Stuff

By DOMINICK COSTELLO Farm Editor

What makes all that green stuff in the Salt Valley lakes? Farmers' fertilizer, pollution and chemicals have been blamed, but University of Nebraska engineers now believe it is grass.

Grass is green all right, but the cause of plant foods getting into the water is believed to be the breakdown of the grasses during the winter months. Grass releases plant foods which are absorbed by spring runoff and carried into the streams and lakes.

"It is probably good for raising fish, but it sure makes the lakes unfit for swimming," said Dr. Howard Wittmuss, NU associate professor of agriculture engineering.

Terrace Water

Samples of water, collected for an engineering experiment to evaluate the amount of water held on the land from several different kinds of terraces, are being used to determine what types of plant foods are carried into streams and lakes.

"We have learned that you have to thoroughly clean plastic water containers with acid or you get a false reading from some of the ingredients contained in the plastic," Wittmuss said.

The water is collected by battery-powered, automatic samplers which run when triggered by a switch attached to a float. The device also records the amount of water running off the different types of terraces.

Soil Loss Reduced

"We have been able to reduce soil loss by using steep, grass back terraces and minimum tillage to the point where the loss is actually lower from continuously planted corn ground than it is from permanent grassland," Wittmuss explained.

The engineers have several experiments with terraces on the Rogers memorial farm near Eagle. Some have grass waterways and others have tile inlets that let the water out of the terrace very slowly.

"The tile inlets allow an inch of rain to run off in 24 hours," he said, "with the inlets designed so that each terrace is drained slowly at the same speed."

Geyzers Developed

Early efforts at tile drainage had drained the top terrace first with some installations developing geyzers at lower levels.

The water running from the tiles after recent rains was nearly clear and appeared to be drinkable. Water from the grassed waterways appeared to be muddy; however, this was in part due to poor maintenance of the grassed area for water runoff.

Data collected by the sampling stations indicate that a four-ton soil loss is not unusual from plowed land that is not terraced. The steep back terraces, coupled with a minimum tillage planting method that leaves the trash on the surface, have virtually eliminated soil loss.

Permanent Plot

"We consistently get a greater soil loss from a permanent grass plot than we do from properly farmed terraces," Wittmuss said.

sending Modular Management, and Herman Butler, the pilot, from Crossville, Tenn.

R. Nader Says Officials Against Consumer Laws

Washington (AP) — Consumer advocate Ralph Nader said Sunday that the Nixon administration is against meaningful consumer legislation.

"When it comes down to the nitty gritty, the administration, goes the way of its business sponsors," Nader said in a broadcast interview.

He said Commerce Secretary Maurice H. Stans and presidential aide Peter Flanagan are really running the "consumer show," not Mrs. Virginia H. Knauer, the director of the Office of Consumer Affairs.

In private life, Stans and Flanagan have been connected mainly with business finance and investment.

Nader appeared on NBC's "Meet the Press."

Charley Schultz's Boy Honored At Red Cloud

By DEAN TERRILL
Southeast Nebraska Bureau
Red Cloud — "What ever happened to Charley Schultz's boy?"
An awful lot, judging from all the accolades, and one of the nicest happenings was Sunday's ceremony. It was there that Dr. C. Bertrand Schultz officially became the "Notable Native Son" of centennial celebrant Red Cloud.
Clustered outside the Webster County Historical Museum within two blocks of the NU professor's boyhood home, old friends and officialdom both piled on the plaudits. Even a gubernatorial proclamation of the honor was read by Lt. Gov. Frank Marsh.
Tribute Paid
The Legislature also took note of the day in a resolution read by Sen. Wayne Ziebarth. NU President Joseph Soshnik joined nearly a dozen other state and local leaders in tribute to the

internationally known geologist and scholar.
Unveiled by Mrs. Don Secret and Mrs. Harry Obitz of the Red Cloud Centennial Commission was a museum sun dial in honor of Dr. Schultz. Personal mementoes ranged from blue agate cuff links to a portrait of Chief Red Cloud to an NU Centennial Medallion.
"So many people of this city played a part in what little I have done," said the honoree in a brief presentation. Basking in the recognition along with him and his wife was his mother, Mrs. Esther Schultz, still a Red Cloud resident and this day a front-row spectator.
Graduating from the local high school in 1926, Dr. Schultz took a student job the next year at the NU museum where he then became director in 1941. It was then that he took his Ph. D., his third degree from the University of Nebraska.
He has since traveled the world over as a specialist in

ozoic fossil mammals and geology, and the pleistocene (ice age) fossils and man. Among numerous academic honors was his receiving of the Foundation Professorship of Geology.
Combo Remembered
Also referred to Sunday was his founding of the Hotsy Totsy Band, a straw-hatted high school combo which he chose to give up for geology. Old classmate Cecil Yost not only told of that group but threw in a bouquet of sweet peas — the class flower.
Mrs. Clyde Wolfe, representing the Webster museum board, presented a painting which had been done by her son, Lynne, an art professor at the University of Colorado. Mayor Stan Offner, Ken Wortman of the NEBRASKA Foundation and Mrs. Kay Blackstone of the Nebraska Native Sons also made presentations.
But it remained for Mrs. Mildred Bennett, president of the Willa Cather Memorial and Educational Foundation, to explain the titling of a gift scrapbook. It was boldly lettered, "What ever happened to Charley Schultz's boy?"
Looking for Dr. Schultz several years ago while he was on a research project in Webster County, she had inquired of a farmer concerning his whereabouts. She noted that he was "in the area digging bones."
"Always wondered what happened to Charley Schultz's boy," the farmer had replied. "So he's digging bones, huh?"

DR. SCHULTZ... accepts gift of modernistic sun dial.

Antique Buffs Swarm To Brownville Flea Market

By SAM THORSON
Outstate Nebraska Bureau
Brownville — Antiquity was the key word Sunday in this Nemaha County town which bills itself as the "oldest town in Nebraska."
Some 1,200 shrewd, bargain-hunting antique collectors haggled with antique dealers from five states. They bickered over brass beds, ancient glassware, woodwork, bottles, blankets, tapestries, musical instruments, trinkets and souvenirs.
Prices ranged from dirt cheap to sky high, but for nearly every dusty relic there was a collector of some kind who thought it was a bargain.
A school teacher from Falls City was satisfied to have found several rare fruit jars to add to her collection.
"I have a few hundred dated jars already," she said, "but when you want to fill out the whole set, flea markets are the place."
Her companion, another Falls City woman, discovered some fine bargains on Depression glassware.
Mr. and Mrs. Sam Carithers of Omaha, had found a framed advertising handbill from an Independence, Missouri, milling

company formerly owned by the family of Bess Truman.
"It cost \$7.50, but the sentimental value is tremendous," said Mrs. Carithers, who originally came from Independence.
"We collect antiques, junk — you name it, we have it," Mr. Carithers said. "We're the only people we know who have a dry sink in the living room. It works real handy when you have company and you want to set up a bar — you just put the bottles and crushed ice in it."
The bazaar grounds swarmed with people all day and Main Street was lined with parked cars out past the town limits.
By the end of the day, the Brownville Historical Society had collected over \$1,000 in registration fees from the antique dealers, which will help underwrite their work of preserving the historical heritage of Brownville.
Meanwhile everyone, dealers, decorators, college students and onlookers alike, had found something of ancient fascination and genuine to suit their tastes and make the day worthwhile.

Rouse Will Stand Trial In Police Chief's Death

Oshkosh (P) — Garden County District Judge Orland A. Anderberg has ordered Jesse Travis Rouse, 17, Oshkosh, to stand trial on a charge of first-degree murder in the gunshot slaying last month of Oshkosh Police Chief Richard Vandermate.
Judge Anderberg ruled following a preliminary hearing

that there was sufficient evidence to try the youth.
One witness told the court he heard the dying chief say, "Travis shot me... I tried to give him a break."
Another witness said Rouse had admitted the shooting as well as a jailbreak and three break-ins the same night.
Rouse is accused of killing the 32-year-old Nazarene lay preacher and policeman when he was allegedly caught during a burglary at Larry's Lounge in Oshkosh early the morning of April 8.
Rouse had escaped from the county jail that night. He was being held on a charge of breaking into the courthouse and taking one of four guns which had been confiscated as the result of an earlier family disturbance.
He reportedly got out of jail that night, as well as on several other occasions, by jamming a cell lock with pieces of a styrofoam coffee cup.
Richard Larson, State Patrol criminal investigator from Kimball, testified that Rouse, captured about 15 hours after the shooting, admitted in a statement that he escaped custody and broke into three Oshkosh business firms: The Gamble's Store, where a 22 caliber rifle and shells were stolen, Martin's Tavern, where some whiskey and about \$280 in cash was stolen and at Larry's Lounge where more money was taken and where the shooting occurred.

Army Award Presented To Gen. Welch

Maj. Gen. Lyle A. Welch, Nebraska's adjutant general, was presented the Department of the Army's Meritorious Service Award Sunday night.
Maj. Gen. Francis S. Greenleaf, deputy chief of the National Guard bureau, made the presentation at the third annual recognition banquet of the National Guard Association of Nebraska.
Gen. Greenleaf, native of Hastings, also was honored. He was one of five persons receiving the association's Distinguished Service Award.
Others were Col. Fred H. Bailey, Jr., of Lincoln, commander of the Nebraska Air Guard's 55th Tactical Reconnaissance Group; former guardsmen Col. Jack S. Goodrich of Omaha and Col. Harold C. Raymond of Anselmo. Ivan D. Beaumont, managing editor of the Nebraska City News-Press, received civilian recognition.
Meritorious Service Awards went to M. Sgt. Wayne N. Hawley of Lincoln and former guardsman Maj. Glen E. Cohn of Nebraska City.
Ten recently retired guardsmen were recognized for 20 or more years service in the Nebraska National Guard: Dwight L. Snyder and Warren J. Firestone, both of Lincoln; William C. Nuckolls of Fairbury; Glen E. Cohn of Nebraska City; Roland D. Sedlacek of Hastings; Kermit E. Belau of Gibbon; Donald L. Keller of Trenton; Thomas T. Varney of Broken Bow; Mel E. Murphy of Omaha and John E. Stayton of Geneva.

Satellite Launched

Moscow (UPI) — The Soviet Union launched No. 423 in its Cosmos series of unmanned earth satellites, the news agency Tass said. Tass said it was in an elliptical orbit, a maximum of 317 miles and a minimum of 173 miles above the surface of the earth.
Contractors To Meet
The Lincoln division, Nebraska Chapter of National Electrical Contractors Association, will meet at 5:45 p.m. Tuesday at the Holiday Inn, 5250 Cornhusker Highway.

Five Persons Die In Highway Mishaps

Five people have been killed in Memorial Day weekend traffic accidents in Nebraska, boosting the state's 1971 highway death toll to 138, compared to 142 at this time last year.
Jerry Lee Reynolds of Council Bluffs, Iowa, was killed early Sunday when his car hit a tree on Turner Boulevard just south of Farnam St. in Omaha.
Reynolds was the driver. Three passengers were injured. Police said witnesses related that the Reynolds auto passed another car at high speed, changed lanes to avoid striking a parked car, crossed the boulevard and hit the tree.
Phyllis Northern, 27, of Omaha was reported in satisfactory condition at a hospital. Two other passengers, Andy Jensen, 27, and William Nelson, both of Omaha, were treated and released.
At Bellevue, police said Larry John Petruck of Santa Ana, Calif., a staff sergeant at Offutt Air Force Base, was killed late Saturday when the car in which he was riding sheared off an electric pole in Haworth Park.
M. Sgt. Ronald T. Dillon, 33, the driver, and Philip Hoggah, 28, another passenger, were released after treatment at a hospital. Both are from Offutt.
Another victim was killed in a one-car crash early Sunday. Gage County Atty. Ronald G. Sutter said Wesley R. Dean, 26, Omaha, died when he was thrown from a car which left U.S. 77 10 miles north of Beatrice and slammed into a culvert. Dean and the car's other occupant were thrown from the vehicle.
Sutter said the accident was discovered at 6:20 a.m. Sunday.
Bennie Needham, a soldier from Ft. Riley, Kan., who was with Dean, was hospitalized in critical condition in Beatrice, Sutter said.
Raymond E. Fuller, 56, Plattsmouth, died Saturday in a one-car crash on U.S. 34, one-fourth mile east of the Nehawka spur, the Cass County Sheriff's office reported.
Leeta C. Kriha, 22, Big Springs, was killed in a pickup truck crash on U.S. 30 about

three-fourths of a mile east of Brule Saturday, the state patrol reported.
She was a passenger in a

vehicle driven by Terry C. Bilka of Enders, who was treated at an Ogallala hospital, the patrol said.

Grant For Angela Davis Draws Praise, Criticism

Omaha (P) — Nebraska Presbyterian ministers and laymen have expressed reactions ranging from approval to indignation over the national United Presbyterian Church's grant of \$10,000 to black militant Angela Davis for her defense fund.
The Rev. Edward Stimson, pastor of Omaha's Dundee Presbyterian Church, said the national Church, and Race Council, which made the grant, was "rebuked" by the church's general assembly.
The assembly met last week in Rochester, N.Y., and narrowly approved a resolution stating it had "serious questions" about the "propriety of allocating funds to the defense of Angela Davis," he said.
Dr. Stimson said he believes the grant showed "obvious poor judgement" and he applauded the assembly resolution.
At least one Nebraska delegate, Mrs. John Roberts of Dix, voted against rebuking the council.
"I don't know all the circumstances of the case and I thought we should take the word of our fellow Presbyterians that this was a necessary use of the funds," she said, noting the grant was requested by a Presbyterian group from Marin County, Calif.
"She may be innocent or she may be guilty, but it is usually taken for granted that anyone who is poor or black or a Mexican or an Indian or a woman or a child doesn't have too good a chance for a fair trial," Mrs. Roberts said.
Another delegate, the Rev. Warren Kunkel of Aurora, Neb., said he voted to rebuke the council.
"I don't think Angela Davis needs someone to help her," he said. "I think she has plenty of funds."

The Rev. Robert Murphy of Omaha, the moderator, or elected head, of the Nebraska Presbyterian Synod, said he is "thoroughly and completely against the grant."
"She is an avowed card-carrying Communist by her own admission and as such she is dedicated to the overthrow of the U.S. government and all religious organizations," said the Rev. Mr. Murphy.
The Rev. James Arnot, an Auburn minister, said:
"I think we have an obligation to see that Angela Davis receives an adequate defense in order to demonstrate that our system works."
"I don't know if she's innocent or guilty, but she's entitled to a fair trial and the church has a duty to see that our judicial system works the way it's supposed to."
Ray Crossman of Omaha, a member of Dundee Presbyterian Church, said he thinks the grant was "clearly improper" and the same funds could have "been used to benefit minority people in a much better way."

Charley Schultz's Boy Honored At Red Cloud

By DEAN TERRILL
Southeast Nebraska Bureau

Red Cloud — "What ever happened to Charley Schultz's boy?"

An awful lot, judging from all the accolades, and one of the nicest happenings was Sunday's ceremony. It was there that Dr. C. Bertrand Schultz officially became the "Notable Native Son" of centennial celebrant Red Cloud.

Clustered outside the Webster County Historical Museum within two blocks of the NU professor's boyhood home, old friends and officialdom both piled on the plaudits. Even a gubernatorial proclamation of the honor was read by Lt. Gov. Frank Marsh.

Tribute Paid

The Legislature also took note of the day in a resolution read by Sen. Wayne Ziebarth. NU President Joseph Soshnik joined nearly a dozen other state and local leaders in tribute to the

internationally known geologist and scholar.

Unveiled by Mrs. Don Secrest and Mrs. Harry Obitz of the Red Cloud Centennial Commission was a museum sun dial in honor of Dr. Schultz. Personal mementoes ranged from blue agate cuff links to a portrait of Chief Red Cloud to an NU Centennial Medallion.

"So many people of this city played a part in what little I have done," said the honoree in a brief presentation. Basking in the recognition along with him and his wife was his mother, Mrs. Esther Schultz, still a Red Cloud resident and this day a front-row spectator.

Graduating from the local high school in 1926, Dr. Schultz took a student job the next year at the NU museum where he then became director in 1941. It was then that he took his Ph. D., his third degree from the University of Nebraska.

He has since traveled the world over as a specialist in

ozoic fossil mammals and geology, and the pleistocene (ice age) fossils and man. Among numerous academic honors was his receiving of the Foundation Professorship of Geology.

Combo Remembered

Also referred to Sunday was his founding of the Hoty's Totsy Band, a straw-hatted high school combo which he chose to give up for geology. Old classmate Cecil Yost not only told of that group but threw in a bouquet of sweet peas — the class flower.

Mrs. Clyde Wolfe, representing the Webster museum board, presented a painting which had been done by her son, Lynne, an art professor at the University of Colorado. Mayor Stan Offner, Ken Wortman of the NEBRASKA Foundation and Mrs. Kay Blackstone of the Nebraska Native Sons also made presentations.

But it remained for Mrs. Mildred Bennett, president of the Willa Cather Memorial and Educational Foundation, to explain the titling of a gift scrapbook. It was boldly lettered, "What ever happened to Charley Schultz's boy?"

Looking for Dr. Schultz several years ago while he was on a research project in Webster County, she had inquired of a farmer concerning his whereabouts. She noted that he was "in the area digging bones."

"Always wondered what happened to Charley Schultz's boy," the farmer had replied. "So he's digging bones, huh?"

Antique Buffs Swarm To Brownville Flea Market

By SAM THORSON
Outstate Nebraska Bureau

Brownville — Antiquity was the key word Sunday in this Nemaha County town which bills itself as the "oldest town in Nebraska."

Some 1,200 shrewd, bargain-hunting antique collectors haggled with antique dealers from five states. They bickered over brass beds, ancient glassware, woodwork, bottles, blankets, tapestries, musical instruments, trinkets and souvenirs.

"Prices ranged from dirt cheap to sky high, but for nearly every dusty relic there was a collector of some kind who thought it was a bargain."

A school teacher from Falls City was satisfied to have found several rare fruit jars to add to her collection.

"I have a few hundred dated jars already," she said, "but when you want to fill out the whole set, flea markets are the place."

Her companion, another Falls City woman, discovered some fine bargains on Depression glassware.

Mr. and Mrs. Sam Carithers of Omaha, had found a framed advertising handbill from an Independence, Missouri, milling

company formerly owned by the family of Bess Truman.

"It cost \$7.50, but the sentimental value is tremendous," said Mrs. Carithers, who originally came from Independence.

"We collect antiques, junk — you name it, we have it," Mr. Carithers said. "We're the only people we know who have a dry sink in the living room. It works real handy when you have company and you want to set up a bar — you just put the bottles and crushed ice in it."

The bazaar grounds swarmed with people all day and Main Street was lined with parked cars out past the town limits.

By the end of the day, the Brownville Historical Society had collected over \$1,000 in registration fees from the antique dealers, which will help underwrite their work of preserving the historical heritage of Brownville.

Meanwhile everyone, dealers, decorators, college students and onlookers alike, had found something of ancient fascination and genuine to suit their tastes and make the day worthwhile.

Rouse Will Stand Trial In Police Chief's Death

Oshkosh (AP) — Garden County District Judge Orland A. Anderberg has ordered Jesse Travis Rouse, 17, Oshkosh, to stand trial on a charge of first-degree murder in the gunshot slaying last month of Oshkosh Police Chief Richard Vandermate.

Judge Anderberg ruled following a preliminary hearing

that there was sufficient evidence to try the youth.

One witness told the court he heard the dying chief say, "Travis shot me . . . I tried to give him a break."

Another witness said Rouse had admitted the shooting as well as a jailbreak and three break-ins the same night.

Rouse is accused of killing the 32-year-old Nazarene lay preacher and policeman when he was allegedly caught during a burglary at Larry's Lounge in Oshkosh early the morning of April 8.

Rouse had escaped from the county jail that night. He was being held on a charge of breaking into the courthouse and taking one of four guns which had been confiscated as the result of an earlier family disturbance.

He reportedly got out of jail that night, as well as on several other occasions, by jamming a cell lock with pieces of a styrofoam coffee cup.

Richard Larson, State Patrol criminal investigator from Kimball, testified that Rouse, captured about 15 hours after the shooting, admitted in a statement that he escaped custody and broke into three Oshkosh business firms: The Gamble's Store, where a .22 caliber rifle and shells were stolen, Martin's Tavern, where some whiskey and about \$280 in cash was stolen and at Larry's Lounge where more money was taken and where the shooting occurred.

EVENTS

IN PERSPECTIVE

By WILLIAM O. DOBLER

Another sign of the times — the annual Jumping Frog Jubilee of Calaveras County may never again be held. This year, the area was invaded by throngs of people interested in everything but jumping frogs. The new result was one death, 114 injuries and 60 arrests, many of narcotics charges.

The chairman of the California county board stated: "Very frightening and completely out of control. We just can't allow it again, and we won't."

Well, that may put a dent in the activities of Nebraska's former Lt. Gov. John Everroad but we believe that the frog will still have a place in the world. Fortunately, not even the most unorthodox members of society have yet invaded the world of little children and they are just now coming into their own.

★

Very soon now, all the schools will be out for the summer and the young people will have three months of vacation. Plenty of families will end up with their own jumping frogs in one form or another.

A jumping frog may be the thing that a mother finds, to her dismay, in the pocket of her young son's jeans. Or, the frog may jump out at her when she opens her young son's sock drawer. The frog, you see, is just one of the things that fascinates young boys when they are coming to know this world in which they live.

The days ahead will be those kind of days for young boys and girls — times when they will mature through the exploration of their environment and a free-wheeling association with others of their age. Gone for the summer months are the disciplines of the academic year, the appointed hours to retire and to rise, the proper time for meals and the right kind of attire.

The summer months are for living as it comes natural to boys and girls. This may mean bike rides that take them to seldom-visited places, relatively far from home and for as long as an entire day.

★

Youngsters, for instance, may ride to Hickman, which might not sound like much to you but can be quite an experience for them. Hickman is no Chicago but it is a new and strange town, a place unfamiliar to the new young visitor and a place apart from the security of the home and neighborhood.

That's what some of such outings are all about, the experiencing of independence, the getting out and making decisions on your own, of finding your own way and setting your own pace. All of these are things that you have to do throughout life, with only the nature of the decisions changing as you mature.

One boy may have a frog and the other a snake. Do they make a trade or don't they? They will figure it out for themselves and both end up satisfied but the criteria for judgment they use might well be unrecognizable by any of us.

Many times, the guiding force in a situation may be little other than plain old curiosity. It is curiosity that makes a young boy climb a tree to look into a squirrel's nest or prompts a little girl to see how far she will sink when she walks into the mud.

★

Curiosity may send that little girl over the top of a barbed wire fence to examine the flowers that grow in the meadow beyond. For the same reason, she may examine a bee's nest, coming home with both torn shorts and shirt and a few welts. If the bees got to her, she may be a little concerned about it but she will have picked up a little knowledge.

The summer is time for innovation, too, for making a go-cart out of odd pieces of wood and left-over roller skates or converting an old tire and a strong rope to a swing. It may be time to make a boat or a canoe, to erect a tree house or to turn the backyard into a magic fairyland.

Along with all this go such things as the more organized activities of swimming, tennis and baseball. What could be greater on a hot summer afternoon than a dip in the neighborhood pools or maybe even a little wading in a nearby creek?

The drug and violence scene may have played heck with the Calaveras County reincarnation of Mark Twain's famous story but the characters he created live on in many ways just as they did a long time ago along the Mississippi. We are all for change in this world but, hopefully, the change will come in the right places and not to the sacrifice of every pleasant and happy time in life.

RICHARD L. WORSNOP

Hollywood To Try Again
On Romantic Productions

WASHINGTON — Something akin to the law of supply and demand applies to eroticism on the screen. When sex scenes in movies are abundant and explicit, as at present, the net effect is numbing and anti-erotic. The jaded public turns to something different, if not exactly new—Love Story, for instance.

Much the same thing happened around 40 years ago. Film historians Richard Griffith and Arthur Murray recall that Hollywood movies, during the early depression years, "increasingly featured 'horizontal' love-making, risqué situations, and off-color dialogue, while the camera lingered more and more lovingly over the details of the heroine's preparations for retiring."

In short order, the Episcopal Committee on Motion Pictures, the National Legion of Decency, and the Production Code Administration were formed. The studios surrendered without a fight. By the mid-1930s, the public was being treated to a steady diet of cinematic sweetness-and-light—Little Women, David Copperfield, Little Lord Fauntleroy, and other wholesome family fare.

★ ★ ★ And now Hollywood is preparing to launch a new cycle of inoffensive, fun-for-all films. Production of X-rated and even R-rated features is being cut back sharply. The reason is economic, not altruistic. 20th Century-Fox abandoned all X-rated productions last year, shortly after suffering what a studio ex-

ecutive called "an absolute disaster"—the release, in the same week, of Myra Breckinridge and Beyond the Valley of the Dolls.

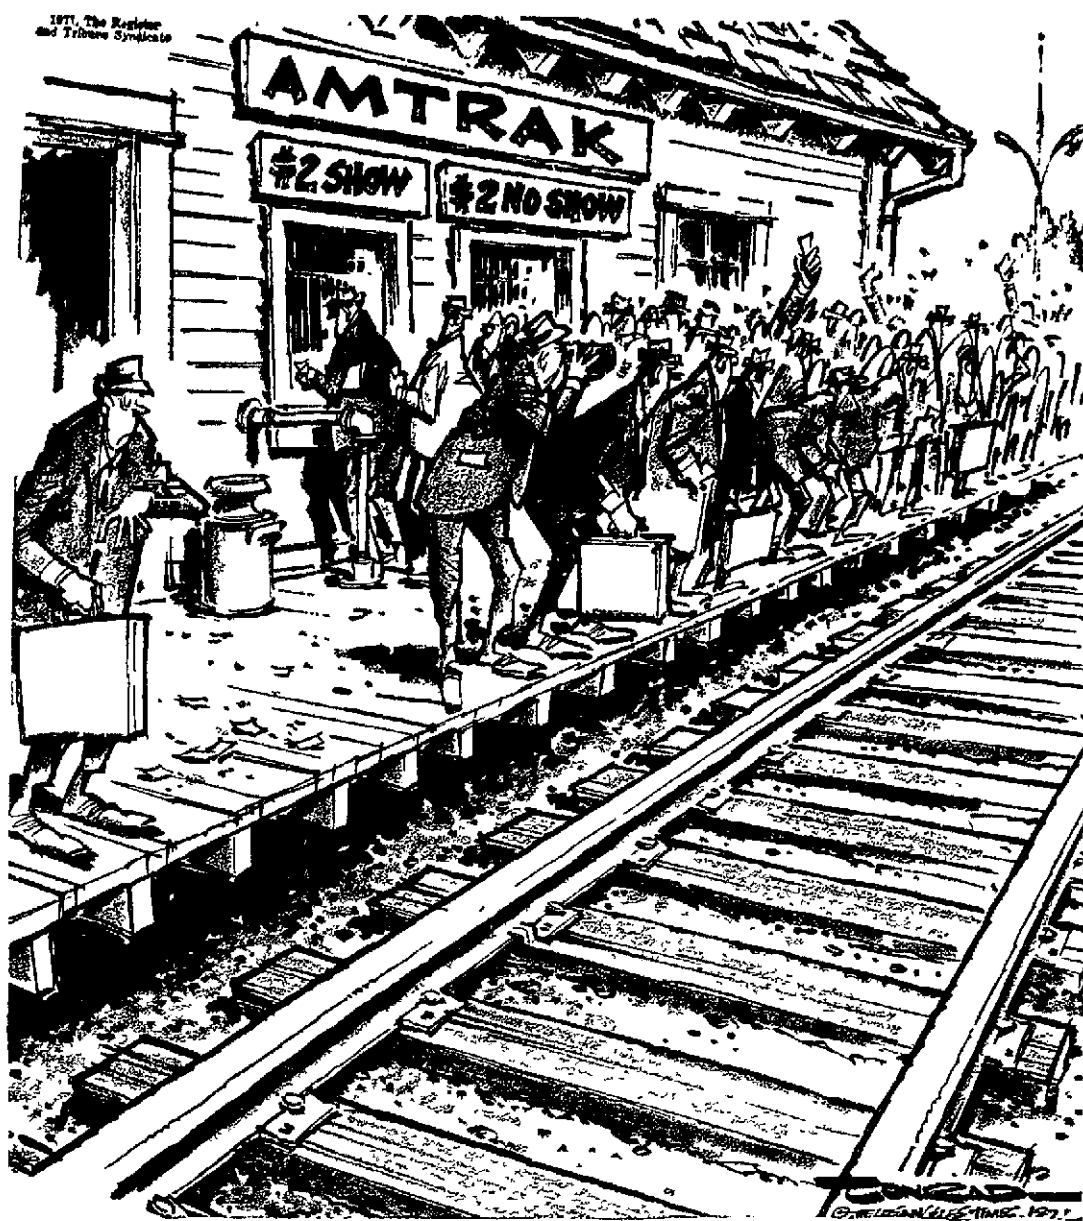

Television, too, has taken note of the trend to nostalgia and romance. ABC recently purchased four old David O. Selznick romantic films for telecast this summer. One of them, Ruby Gentry, was considered fairly hot stuff on its release in 1953. But then, that was the year The Moon is Blue was denied a Motion Picture Code seal of approval because its soundtrack contained the then-forbidden word "virgin."

★ ★ ★ Skeptics may well wonder if Hollywood still has the knack of churning out romantic pictures. The genre was moribund even before the advent of permissiveness. More to the point, the stars of today generally lack the sex appeal of those of the Thirties and Forties—with or without clothes.

What yesterday's romantic stars had is difficult to define. Alexander Walker has written of Jean Harlow: "She looked aglow, on fire in the manner of phosphorus which has light but no heat. She radiated a luminosity that was the very blondness of blond." Of Marilyn Monroe he had this to say: "She did setting-up exercises from a medical textbook on bone structure, so as to be able to assume at will the posture that suggested the required degree of sexiness—just that, and no more."

Court Hears Amish Case

Freedom of religion and freedom from religion are both enjoyed in this country. Many of the people who first settled America were seeking a place where they could practice their religious beliefs unhindered by secular authority and could be free from persecution by their peers. Likewise, many people escaped a state-imposed religion.

The extent of the freedom to engage in religious practices may necessarily be limited in a sophisticated society, however. Should a sect be permitted to engage in a certain activity if the result is only harmful to its members? Or, more directly, should they be exempted from adhering to laws that everyone else must obey?

The U.S. Supreme Court may provide new answers to those questions when it rules on the power of states to require Amish teenagers to go to public high schools. The high court has agreed to hear the challenge of Wisconsin officials to a state supreme court decision in favor of the Amish — the first ruling

in any state to give Amish youngsters an exemption to compulsory school attendance laws.

The Amish people believe it is a violation of their religion to require the children to participate in a "worldly educational environment," and they contend such an environment exists in public high schools. Amish parents have been prosecuted for refusing to send their children to public schools in seven states.

Apparently the constitutional challenge to compulsory attendance laws will be heard by the court for the first time. In 1967, it said it had no jurisdiction to rule on the question. We would guess the court would rule in favor of the Wisconsin officials and overturn the state court's decision. There are other areas, however, in which exemptions to the law have been granted — conscientious objector's status, for example. It will be interesting to see whether the court broadens the ability of such sects as the Amish to retain their religious identity.

A Common Purpose

Memorial Day, 1971, offers an appropriate time to reflect upon some of the things that bind this nation together, to see a certain harmony amid the discord with which we seem to be bombarded. Who could deny that these are troubled times in which we live, times that would have severely challenged the leading statesmen and men of letters of the past?

There is no need here to recite the litany of our ills or of the tribulations of the whole human race because they are generally known. Rather, we might better contemplate the significance of an observance that is now 103 years old.

Reportedly, the first Memorial Day saw Union graves in Arlington National Cemetery covered with flowers while the Confederate graves were barren, southern women being denied entrance to the cemetery.

In retrospect we have come to see this civil strife of the past century as a thoughtless episode in our nation's history, an event whose toll is still being wrecked upon society.

Memorial Day now honors especially all men and women who have given their lives in service to the nation.

In some cases, maybe the specific cause for which they made their sacrifice was subject to question. But in any event, their sacrifice was made for the welfare of the nation and we all might well remember this at the present moment.

Though we may frequently differ in our approaches, it is the general welfare of the nation that moves us all. We know, with the exception of those who would simply destroy the nation, that each of us has an individual future dependent upon the collective status of all of us.

Tranquility will not always prevail as we hammer out the means of achieving our ends but it helps if we recognize even when there is disagreement that there is a unity of purpose. On this Memorial Day, we might well consider those things which bind us together as a nation rather than the differences which split us apart.

Moscow-Peking 'Thaw' Toward Administration
Could Be Element In Negotiations With Hanoi

WASHINGTON — The warming breezes from abroad are treating the Nixon administration to its first big diplomatic thaw and causing the men around the President to toy with the immodest thought that they must be doing something right — in relations with Moscow and Peking, in promoting cease-fire in the Middle East and perhaps even in managing the withdrawal from Southeast Asia.

The politicians around the White House are especially pleased with the news about arms control and troop negotiations and table tennis, which lets their President shine in his favorite role of statesman.

But the thaw has also evoked some interesting speculation about the change in the international climate and some interesting new thoughts about the more familiar foreign problems.

Why, it is asked, have the Russians decided to be more forthcoming about negotiations to limit nuclear arms and to reduce big-power forces in Europe? Budget pressures, in Moscow as in Washington, are thought to be unbearably high, but that alone has never produced arms control or accommodation.

Soviet fears of encirclement — by a hostile China on one side and a hostile West on the other — remain a factor, of-

ficials believe, but probably not decisive.

The most elaborate serious thesis here holds that the Russians have decided to abandon a two-track diplomacy of simultaneous detente with Western Europe and continued tension with the United States, in favor of relaxation with the West as a whole. The reasoning runs something like this:

Moscow had hoped, as always, to stabilize its position in Eastern Europe through accommodation with West Germany, while continuing efforts to undermine American influence in Europe, in the Mediterranean and in the Middle East.

But Chancellor Willy Brandt has shown himself unable to move very far or very fast in a period of Soviet-American tension. Soviet approaches to Bonn have also provoked new tensions between Moscow and East Germany. The reasoning runs something like this:

Moreover, the Soviet naval buildup in the Mediterranean and elsewhere seemed to threaten a costly new sub-competition in the arms race and the risk of new confrontation in places like Cuba. The deep involvement of the big powers in the Middle East came close to spinning dangerously out of control last

fall during the civil war in Jordan.

So the Russians may have decided, the theory goes, to lay aside thoughts of splitting the United States from its allies and to seek the more reliable American as well as European acceptance of their forward positions in Central Europe and the Middle East through both tacit and formal agreements.

Administration officials realized several months ago that nothing short of a direct appeal to the Kremlin could break the conceptual impasse at the talks on strategic arms limitation. The Soviet negotiators were often found to be getting their best information on the Soviet nuclear forces from their American colleagues. The Americans thus concluded that military and diplomatic calculations could be realistically achieved only among a handful of men at the very top of the Soviet leadership.

Now that the Soviet and American hopes for a limited arms control agreement appear to coincide, it should be relatively easy to codify the terms, officials say. The major disagreement an anti-missile missile controls is expected to revolve around the sophisticated radar installations, which the United States wants included in the deal. On offensive missiles, the Russians are thought to want the narrowest possible limitation, while the Americans seek the broadest possible.

Talks about a mutual reduction of troops in Europe are

By DON WALTON

Memorial Day is a time for honoring the dead, particularly the war dead.

But let us also honor the living today.

There are American servicemen living today, young American draftees living today, Vietnamese living today who are going to be dead next Memorial Day.

They're the ones we ought to be thinking about today.

At the present rate of U.S. withdrawal, we're still going to have troops in Vietnam a year from today. They're going to be killing and dying for another year—and more.

And then, next Memorial Day, we can honor them.

They might prefer to be honored today by a resolve to end the American presence in Vietnam before Memorial Day comes again.

President Nixon, we are always reminded, has withdrawn hundreds of thousands of troops. Where President Johnson escalated the war, we are reminded, President Nixon has de-escalated it.

★ ★ ★

Nixon, we are told, should be given credit for winding down the war, for bringing the end in sight.

Most of the credit for that, I believe, goes to the American people and particularly to the young. They have de-escalated this war; they are forcing it to a conclusion.

The President may deserve credit for not flying in the face of the popular will, but it's hard

Walton

to cloak him in the role of peacemaker.

Prior to the election of 1968, Nixon was one of the war's leading apologists, sometimes hinting that stronger military action—not less—should be taken.

That was before young Americans put together the 1968 peace movement. That was before they found McCarthy and convinced him he should run for president.

That was before New Hampshire—before the young saturated that state, and convinced nearly half of its Democratic voters that this relatively unknown peace candidate from Minnesota should receive their support rather than the president, Lyndon Johnson, then still a candidate for re-election.

That was before Johnson announced he would bow out before peace candidates swept the Democratic presidential primaries which followed New Hampshire.

And that's why I think it's fair to suggest the popular will, aroused and shaped by the student generation, changed Mister Nixon's views on Vietnam and forced de-escalation, withdrawal and the winding down process which is credited to the President.

★ ★ ★

Good for Nixon. He is responding to the people, and he should be praised for that.

But good for the people. Good for the student generation. They should be praised for ending the war.

Now, if you accept that analysis—and a great many people certainly won't—then it also is fair to suggest that if the people want the war ended more quickly than the Nixon

administration appears prepared to conclude it, they'd better take charge again.

To his credit, the President apparently reacts to public pressure. And on this day when American eyes turn toward the cemeteries and look upon the young widows and their small children and consider, one would hope, the people, young and old, civilian and military, who have died in Vietnam, the pressure most appropriately should begin to build anew.

★ ★ ★

Give us no more war dead to honor next year.

Let us honor those who have already died, but celebrate life for the young people of our country who have children to raise and happiness to pursue, who want to give life and enjoy it, not take it.

Yeah, I know, nobody wants war. Nobody likes it.

But not everybody tries to prevent it, either. Or to end it.

America's young people have done much in the past decade, particularly in the last few years, to save this country, to make it keep its promises to its own people and show some regard for the lives of others.

This generation, and hopefully those which follow, deserves to be heard—and heeded. And saved.

They would rather be living than remembered on Memorial Day, 1972, rather be found at a picnic table than at a grave.

And the people in Indochina whom we are killing have children to raise, too, and friends and family whose lives are just as precious to them.

We say that life is cheap over there . . . but we have made it so.

Let's not pile up more bodies to honor next Memorial Day.

MARQUIS CHILDS

Britain Faces Major Population Crisis

LONDON — This green and pleasant land has been enjoying a spell of fine spring weather such as the memory of the oldest inhabitant can hardly recall. In Hyde Park, Green Park, St. James's Park, in all the small squares and crescents, sun worshippers are lying cheek by jowl to soak up the radiance out of a cloudless sky.

This would almost anywhere else be unseemly crowding. But because the British value their privacy, they have made civility a rule of life. That is how they have managed to live with such decorum in these overcrowded islands. How crowded they are and how overcrowded they threaten to become is the subject of a Parliamentary report that created a sensation when it was released.

The population study of the Parliamentary Committee on Science and Technology warned that unless drastic measures are taken, an additional

13,000,000 people by the year 2000 will create an intolerable condition of life. The sensational press read into the conclusions of the report an implied demand for family limitation by law.

The chairman of the committee, Airey Neave, a Conservative member of Parliament, promptly denied that either the report or in a press conference he held was there any such implication. But the report does not sugar-coat the conviction that Britain must do far more, both through government and private family planning agencies, if intolerable overcrowding is not to destroy the quality of life in these isles and indeed threaten the existence of a people so dependent on trade with the outside world.

The population of the United Kingdom is close to 56,000,000—for England and Wales just under 50,000,000. What is startling to learn is that in the most concentrated areas, population density—3.44 to the acre in the northwest, 2.56 in the southeast—exceeds the crowding anywhere in Europe. In the Netherlands, regarded as one of the most crowded countries, the average person per acre is 1.27; for Belgium 1.28.

The recent rate of population growth, 0.7 per cent a year, is low in comparison with most industrialized countries. It is phenomenally low compared to countries like Egypt, with a rate of increase well over three per cent, and most of Latin America, where the population explosion rages unabated. While government witnesses took a cautious view of Britain's ability to absorb as many people in the last 30 years of the century as were added in the first seven decades, outsiders concerned with

family planning and the population dilemma put the problem as bluntly as possible.

The Conservation Society pointed out that, in terms of being able to feed itself, Britain was already grossly overpopulated. This country grows only one-half its food supply. Fishing grounds off Britain's shores have been overfished and today, as the society noted, much of the fish consumed here comes from distant waters.

The society, the principal organization concerned with the environment, urged a series of government measures to reduce the population increase to a minimum.

"The responsibility for insuring that we have a family planning service adequate for our needs rests with the government," the society said in a memorandum filed with the Parliamentary Committee. "And we urge the government to make the family planning service an integral part of the National Health Service, thus implementing the recommendation of the Royal Commission on Population in 1949."

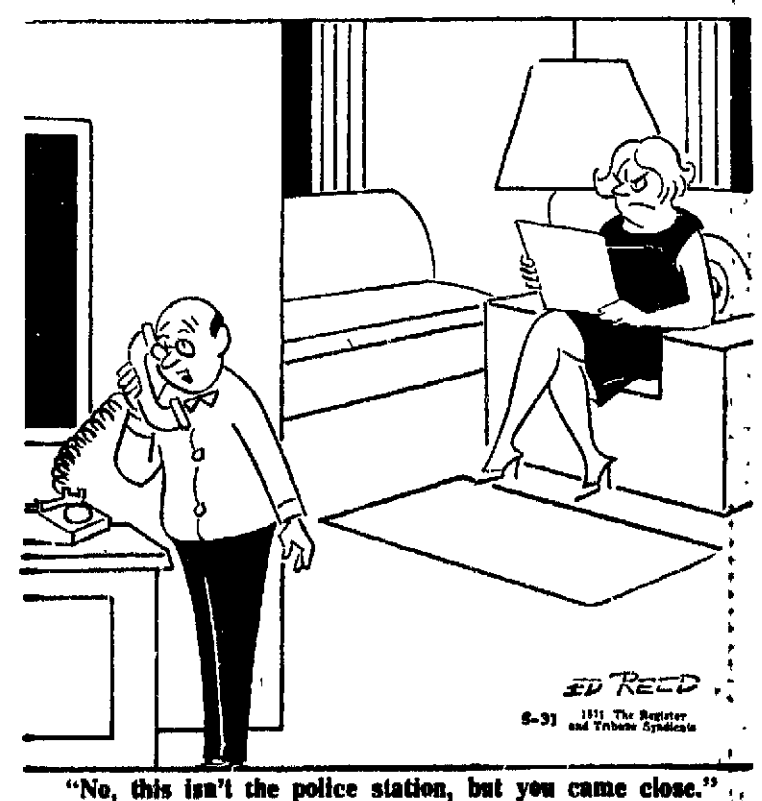

"The government approach," the memorandum contends, "has been so cautious that birth-control advice is hopelessly inadequate and badly publicized."

The Conservation Society urged greater facilities under the Abortion Act passed in 1967, with the government taking steps to "insure that all women who wish and who are entitled to have their pregnancies terminated under the act are able to obtain operations without further delay." A report just issued shows 22,808 legal abortions in England and Wales in the first quarter of this year, a slight increase over the same period in 1970.

EVENTS

IN PERSPECTIVE

By WILLIAM O. DOBLER

Another sign of the times — the annual Jumping Frog Jubilee of Calaveras County may never again be held. This year, the area was invaded by throngs of people interested in everything but jumping frogs. The new result was one death, 114 injuries and 60 arrests, many of narcotics charges.

The chairman of the California county board stated: "Very frightening and completely out of control. We just can't allow it again, and we won't."

Well, that may put a dent in the activities of Nebraska's former Lt. Gov. John Everroad but we believe that the frog will still have a place in the world. Fortunately, not even the most unorthodox members of society have yet invaded the world of little children and they are just now coming into their own.

Very soon now, all the schools will be out for the summer and the young people will have three months of vacation. Plenty of families will end up with their own jumping frogs in one form or another.

A jumping frog may be the thing that a mother finds, to her dismay, in the pocket of her young son's jeans. Or, the frog may jump out at her when she opens her young son's sock drawer. The frog, you see, is just one of the things that fascinates young boys when they are coming to know this world in which they live.

The days ahead will be those kind of days for young boys and girls — times when they will mature through the exploration of their environment and a free-wheeling association with others of their age. Gone for the summer months are the disciplines of the academic year, the appointed hours to retire and to rise, the proper time for meals and the right kind of attire.

The summer months are for living as it comes natural to boys and girls. This may mean bike rides that take them to seldom-visited places, relatively far from home and for as long as an entire day.

Youngsters, for instance, may ride to Hickman, which might not sound like much to you but can be quite an experience for them. Hickman is no Chicago but it is a new and strange town, a place unfamiliar to the new young visitor and a place apart from the security of the home and neighborhood.

That's what some of such outings are all about, the experiencing of independence, the getting out and making decisions on your own, of finding your own way and setting your own pace. All of these are things that you have to do throughout life, with only the nature of the decisions changing as you mature.

One boy may have a frog and the other a snake. Do they make a trade or don't they? They will figure it out for themselves and both end up satisfied but the criteria for judgment they use might well be unrecognizable by any of us.

Many times, the guiding force in a situation may be little other than plain old curiosity. It is curiosity that makes a young boy climb a tree to look into a squirrel's nest or prompts a little girl to see how far she will sink when she walks into the mud.

Curiosity may send that little girl over the top of a barbed wire fence to examine the flowers that grow in the meadow beyond. For the same reason, she may examine a bee's nest, coming home with both torn shorts and shirt and a few welts. If the bees got to her, she may be a little concerned about it but she will have picked up a little knowledge.

The summer is time for innovation, too, for making a go-cart out of odd pieces of wood and left-over roller skates or converting an old tire and a strong rope to a swing. It may be time to make a boat or a canoe, to erect a tree house or to turn the backyard into a magic fairland.

Along with all this go such things as the more organized activities of swimming, tennis and baseball. What could be greater on a hot summer afternoon than a dip in the neighborhood pools or maybe even a little wading in a nearby creek?

The drug and violence scene may have played heck with the Calaveras County reincarnation of Mark Twain's famous story but the characters he created live on in many ways just as they did a long time ago along the Mississippi. We are all for change in this world but, hopefully, the change will come in the right places and not to the sacrifice of every pleasant and happy time in life.

RICHARD L. WORSNOP

Hollywood To Try Again On Romantic Productions

WASHINGTON — Something akin to the law of supply and demand applies to eroticism on the screen. When sex scenes in movies are abundant and explicit, as at present, the net effect is numbing and anti-erotic. The jaded public turns to something different, if not exactly new—Love Story, for instance.

Much the same thing happened around 40 years ago. Film historians Richard Griffith and Arthur Mayer recall that Hollywood movies, during the early depression years, "increasingly featured 'horizontal' love-making, risqué situations, and off-color dialogue, while the camera lingered more and more lovingly over the details of the heroine's preparations for retiring."

In short order, the Episcopal Committee on Motion Pictures, the National Legion of Decency, and the Production Code Administration were formed. The studios surrendered without a fight. By the mid-1930s, the public was being treated to a steady diet of cinematic sweetness-and-light—Little Women, David Copperfield, Little Lord Fauntleroy, and other wholesome family fare.

What yesterday's romantic stars had is difficult to define. Alexander Walker has written of Jean Harlow: "She looked aglow, on fire in the manner of phosphorus which has light but no heat: She radiated a luminosity that was the very blondness of blond."

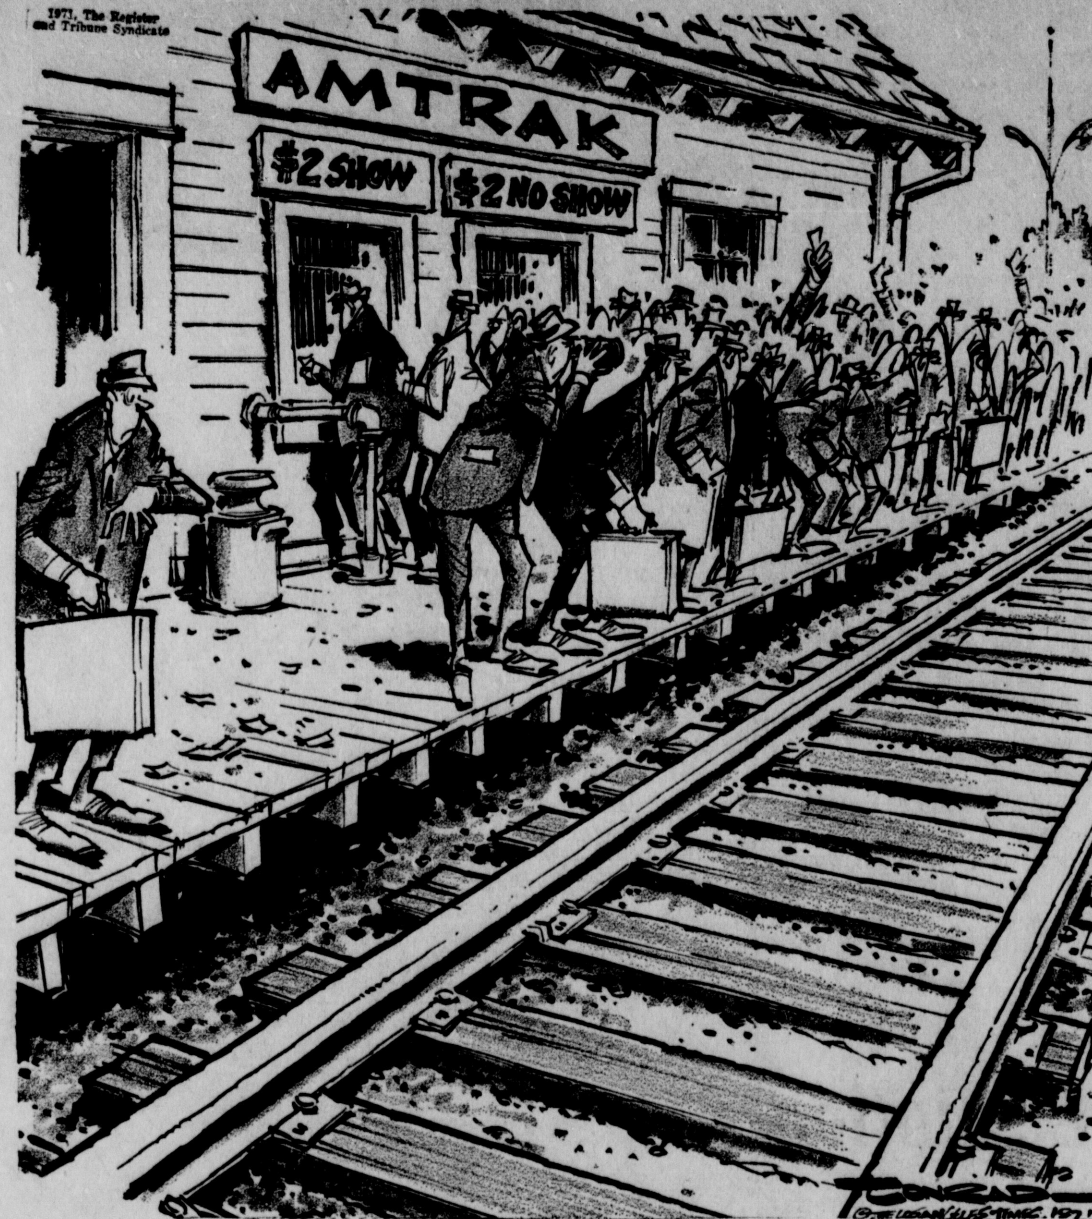

Marilyn Monroe had this to say: "She did setting-up exercises from a medical textbook on bone structure, so as to be able to assume at will the posture that suggested the required degree of sexiness — just that, and no more."

Skeptics may well wonder if Hollywood still has the knack of churning out romantic pictures. The genre was moribund even before the advent of permissiveness. More to the point, the stars of today generally lack the sex appeal of those of the Thirties and Forties—with or without clothes.

Why, it is asked, have the Russians decided to be more forthcoming about negotiations to limit nuclear arms and to reduce big-power forces in Europe? Budget pressures, in Moscow as in Washington, are thought to be unbearably high, but that alone has never produced arms control or accommodation.

"The responsibility for insuring that we have a family planning service adequate for our needs rests with the government," the society said in a memorandum filed with the Parliamentary Committee. "And we urge the government to make the family planning service an integral part of the National Health Service, thus implementing the recommendation of the Royal Commission on Population in 1949."

"The government approach," the memorandum contends, "has been so cautious that birth-control advice is hopelessly inadequate and badly publicized."

The Conservation Society urged greater facilities under the Abortion Act passed in 1967, with the government taking steps to "insure that all women who wish and who are entitled to have their pregnancies terminated under the act are able to obtain operations without further delay." A report just issued shows 22,808 legal abortions in England and Wales in the first quarter of this year, a slight increase over the same period in 1970.

Soybean Plant Plans To Limit Wastes

By TOM EKVALL
Star Staff Writer

"We are willing to spend as much as it takes to get the problem solved," commented James Randall, executive vice president of Archer-Daniels-Midland Co. (ADM), in a telephone interview from the firm's Decatur, Ill., based headquarters.

Randall was referring to the treatment of organic wastes at the ADM soybean refinery plant, which during the past two years has created havoc with the city's lagoon in northeast Lincoln.

"The lagoon is used to treat wastes in the area. Recently, this treatment has been done in an odorless manner."

'Good Neighbor'

Describing the Lincoln plant as one of the largest of its kind, Randall said the firm has "a big stake here and we want to be a good neighbor."

"He said the firm has gone to great lengths to correct the situation in the past two years."

When questioned why high-strength wastes still continued to enter the lagoon after the situation supposedly was cor-

rected, his response was that the plant, being one of the largest refineries in the world, is "very modern, complicated and highly automated. A little upset in the plant tends to be a big upset in the lagoon."

Odorous Manner

Those upsets, which have happened on several occasions, ended up destroying the lagoon's ability to treat wastes in a normal, odor-free manner.

And the odors do not go away until the city can return the pool to its normal operation where sunlight and wind action act on the sewage.

City Public Utilities Director Lee Blocker said correctional procedures are underway — the cost of which he said will be borne by the city and not by ADM.

Labor Costs

Blocker said the costs are basically labor spent by city personnel, who have been taken off other projects.

Randall said he feels sure there will be no more incidents of high-strength wastes entering the lagoon.

He explained that the clarifier which the company plans to in-

stall should take care of the problem.

Also Fatty Oils

The ADM official said a clarifier is the first stage of a normal municipal sewage treatment plant and will take out more of the solid wastes that leave the plant, as well as the fatty oils.

Randall said a large retention basin tank would be constructed to retain the effluent of the plant. There solids would settle to the bottom and then be removed. The fatty oils also would be taken out.

He said, "The basin has a long retention time" and the wastes, when leaving the basin to the lagoon, would be of a low-strength nature and meet city requirements.

'Considerable Analysis'

The ADM official said the decision to use a clarifier came after a "considerable amount of analysis" by ADM officials.

Earlier, a chemical treatment process had been installed which ADM officials had hoped would solve the situation.

"With all the things we have done or are planning, we do not feel now there will be a need for anything further beyond the

clarifier," Randall said.

"This should prevent any further recurrence of high-strength wastes from the plant," he commented.

No Pungent Smells

Randall said he also does not anticipate any pungent smells to come from the retention basin, expected to be in full operation by mid-September.

He said that until the clarifier is fully operational, the part of the plant which has caused the odor problem has been shut down, resulting in a reduction in the strength of the wastes.

Randall said the shutdown has not resulted in any laying off of labor.

"It does though represent an economic loss" in terms of sales. He said he had no idea what the loss would be since the value of products sold fluctuates in the commodity market.

The reason for locating the plant in Lincoln, according to company officials in 1966, was the rapid expansion of soybean growing in southeastern Nebraska. The new plant was to open a new cash market for Nebraska soybeans and provide them with access to world markets.

Hookup To St. Theresa Plant Said Waste Solution

The ultimate answer to the problems Archer-Daniels-Midland Co. (ADM) has with oily wastes is to let the ADM plant hook up to the city's Theresa St. sewage treatment facility, according to Public Utilities Director Lee Blocker.

"City officials seem to agree that smells come from the city's sewage treatment lagoon in northeast Lincoln because the lagoon is not the proper method for treating the high-strength wastes from the ADM plant."

Blocker said the city has offered to let ADM tie into the city sewer system once the Theresa St. plant, now overloaded, is expanded. The tieup, he said, would be "at no cost to the city."

Offered To Pay

ADM officials earlier had

hoped to empty their sewage into the city's Theresa St. treatment plant and had offered them to pay for rerouting the sewage.

Plans to reroute the sewage were discarded because the treatment plant at that time was already overloaded, being undersized when expanded.

James Randall, executive vice president of ADM, said in a recent telephone interview that the wastes coming from the soybean refinery plant are "indicative of the vegetable oil refinery operation."

Common Problem

"Everyone in the vegetable oil refinery business has a disposal problem," Randall said.

"Whether it becomes a pollution problem depends on the capacity of the treatment

facility receiving the wastes," he continued.

He said that in Decatur, Ill., ADM's waste strengths are many times higher than in Lincoln and the Decatur wastes go to a treatment plant designed to handle industrial wastes.

Cooperation Praised

"The wastes are not indicative of a poor operation" in Lincoln, he said. Randall also had high praise for the cooperation of Lincoln officials.

A key question to some observers is why a soybean refinery was allowed in the first place to use a lagoon for a treatment system.

T. A. Filipi, head of the state health department's environmental health services, told a meeting of Chamber of Commerce agriculture committee members the plant never

should have been built and that he had misgivings from the start about its using the lagoon.

Wrong Design

The lagoon's problem is that it is not designed to handle the strength or type of wastes which comes from the soybean refinery plant.

Apparently, according to reports of city officials after the first outbreak of the odors in 1969, information supplied by ADM was inaccurate — indicating that the lagoon with aerators installed could handle the strength of waste.

Later estimates revealed that the strength would exceed the design limits — the actual samples in late 1969 were 10 times higher than the estimates.

Many Complaints

"We had no concept that the odors would be as bad as they have been at times," Blocker said in 1969 after city officials received a barrage of complaints from residents in the northeast area.

Lagoons, if designed and used right, are normally odor-free, according to city officials.

The lagoons in the Havelock area were installed in 1965 as a temporary measure to handle sewage in the area which before was dumped raw into Salt Creek.

Below Estimate

The design limit in 1965 was 500 pounds of BOD (biochemical oxygen demand) daily, below that of even the initial estimate of the strength of ADM's wastes.

Aerators were added to the lagoon in 1970 to increase the design limit after the ability of the lagoons to treat the sewage in an odor-free manner had already been destroyed.

The city's attitude since the outbreak of smells has been that the city should help industry solve its problems.

Although city officials indicated that the most recent peak load did exceed city ordinance requirements, no move to enforce the ordinance apparently has been made. Present strengths are reported to be within acceptable tolerance limits of the lagoons; however, the city is not commenting on whether the strengths meet the legal limits.

Nebraska Legislators To Make Good Use Of Summer Freedom

By The Associated Press

Nebraska state senators, whose lawmaking sessions have sometimes run through the summer, have been given summer freedom this year by the 90-day session limit.

A survey of summer plans of the legislators indicated that most would be returning home to farms and businesses with hopes of getting away for relaxation sometime during the coming months.

Sen. John De Camp of Neligh

said he hopes to take a trip of several weeks to Hong Kong, Vietnam and Bangkok. De Camp served in the Army in Vietnam prior to his election to the Legislature and indicated he has several friends still in the Orient.

Traveling Planned

Sen. Ellen Craft also has a summer of traveling planned. Besides several days at the YMCA family camp in Estes Park, Colo., the North Platte lawmaker plans a visit to her daughter in San Francisco and a trip to Missouri to help one of her sons move.

Membership on legislative interim study committees will demand some time from most senators, and Sen. Herbert Duis doesn't plan on doing much else.

"There's no chance for a legislator any more to have a vacation," said the Gothenburg senator. "It's a fulltime job. I'll be working for the Legislature all summer."

Sens. Richard Marsh of Milligan, Cal Carsten of Avoca, Herb Nore of Genoa and Leslie Stull of Alliance all said they were anxious to return to farming and ranching operations.

Business, Vacations

Nore said he'll also be visiting

some of his business interests located in other states. Stull hopes to get away to the Black Hills for a vacation in August, and Carsten said he's anxious to do some fishing toward the end of the summer.

Sen. John Savage said he'll be busy at home in Omaha this summer catching up on his work as executive director of the Omaha Press Club. He has also scheduled a trip to Denver for a meeting with lawmakers from other states to discuss legislative processes. Any other free time, he says, will be spent with his grandchildren — three active Little Leaguers.

Sen. Gerald Stromer's duties as president of Nebraska Young Republicans will keep him on the go this summer. The Kearney lawmaker will head the Nebraska delegation to the national Young Republicans convention in Phoenix for a week in June. Following a summer of speaking engagements and Young Republicans work, Stromer said he hopes to "get out to the Sandhills to get away from it all."

Beatrice Sen. Fred Carstens, who said he "still loves to travel," plans a fishing trip in northern Minnesota and maybe "a couple of other jaunts."

Enemy Blasts Allied Bases Along DMZ

Saigon (AP) — Enemy forces launched the largest number of attacks across South Vietnam in more than a month over the weekend and blasted four allied bases guarding the demilitarized zone with more than 150 shells.

Most of the attacks appeared to be small in magnitude and were directed against South Vietnamese positions.

Saigon headquarters reported 48 "enemy-initiated incidents," 30 of them rocket and mortar assaults against South Vietnamese positions, during the 24-hour period ending at 6 a.m. Sunday.

The U.S. Command reported three rocket and mortar attacks against American bases, two ground clashes and a helicopter shot down in eastern Cambodia.

Field reports and battlefield communiques said at least 20 South Vietnamese soldiers and 12 civilians were killed. Another 101 South Vietnamese troops and 13 civilians were reported wounded.

The U.S. Command said one American soldier was killed and eight were wounded.

Bomb Lacks Explosive

New York (UPI) — When Nicky Della discovered a pipe bomb on a booth in his brother's Brooklyn restaurant he called the police. The bomb squad rushed to Petey Della's restaurant and carefully dismantled the device only to find it consisted of two pieces of capped pipe connected by wires but lacking any explosive.

A special message to property owners at Lincoln Memorial Park...

Since first announcing our magnificent new Garden Mausoleum, many families with property at Lincoln Memorial Park have asked if it is possible to exchange their lots for clean, dry, above-ground crypts in the Mausoleum.

The answer is yes. We offer a special Property Owners' Exchange Plan under which equitable arrangements can be made for exchanging lots and bronze memorials for mausoleum crypts. A number of property owners have already taken advantage of this offer, including several whose departed loved ones have been moved from ground interment to crypts in the Mausoleum.

If the distinct advantages of mausoleum interment have special appeal to you and you would like complete details on our Property Owners' Exchange Plan, we invite you to complete and mail the coupon below.

Soybean Plant Plans To Limit Wastes

By TOM EKVALL
Star Staff Writer

"We are willing to spend as much as it takes to get the problem solved," commented James Randall, executive vice president of Archer-Daniels-Midland Co. (ADM), in a telephone interview from the firm's Decatur, Ill., based headquarters.

Randall was referring to the treatment of organic wastes at the ADM soybean refinery plant, which during the past two years has created havoc with the city's lagoon in northeast Lincoln.

The lagoon is used to treat wastes in the area. Recently, this treatment has been done in an odorless manner.

'Good Neighbor'

Describing the Lincoln plant as one of the largest of its kind, Randall said the firm has "a big stake here and we want to be a good neighbor."

He said the firm has gone to great lengths to correct the situation in the past two years.

When questioned why high-strength wastes still continued to enter the lagoon after the situation supposedly was cor-

rected, his response was that the plant, being one of the largest refineries in the world, is "very modern, complicated and highly automated. A little upset in the plant tends to be a big upset in the lagoon."

Odorous Manner

Those upsets, which have happened on several occasions, ended up destroying the lagoon's ability to treat wastes in a normal, odor-free manner.

And the odors do not go away until the city can return the pool to its normal operation where sunlight and wind action act on the sewage.

City Public Utilities Director Lee Blocker said correctional procedures are underway — the cost of which he said will be borne by the city and not by ADM.

Labor Costs

Blocker said the costs are basically labor spent by city personnel, who have been taken off other projects.

Randall said he feels sure there will be no more incidents of high-strength wastes entering the lagoon.

He explained that the clarifier which the company plans to in-

stall should take care of the problem.

Also Fatty Oils

The ADM official said a clarifier is the first stage of a normal municipal sewage treatment plant and will take out more of the solid wastes that leave the plant, as well as the fatty oils.

Randall said a large retention basin tank would be constructed to retain the effluent of the plant. There solids would settle to the bottom and then be removed. The fatty oils also would be taken out.

He said, "The basin has a long retention time" and the wastes, when leaving the basin to the lagoon, would be of a low-strength nature and meet city requirements.

'Considerable Analysis'

The ADM official said the decision to use a clarifier came after a "considerable amount of analysis" by ADM officials.

Earlier, a chemical treatment process had been installed which ADM officials had hoped would solve the situation.

"With all the things we have done or are planning, we do not feel now there will be a need for anything further beyond the

clarifier," Randall said.

"This should prevent any further recurrence of high-strength wastes from the plant," he commented.

No Pungent Smells

Randall said he also does not anticipate any pungent smells to come from the retention basin, expected to be in full operation by mid-September.

He said that until the clarifier is fully operational, the part of the plant which has caused the odor problem has been shut down, resulting in a reduction in the strength of the wastes.

Randall said the shutdown has not resulted in any laying off of labor.

"It does though represent an economic loss" in terms of sales. He said he had no idea what the loss would be since the value of products sold fluctuates in the commodity market.

The reason for locating the plant in Lincoln, according to company officials in 1966, was the rapid expansion of soybean growing in southeastern Nebraska. The new plant was to open a new cash market for Nebraska soybeans and provide them with access to world markets.

Hookup To St. Theresa Plant Said Waste Solution

The ultimate answer to the problems Archer-Daniels-Midland Co. (ADM) has with oily wastes is to let the ADM plant hook up to the city's Theresa St. sewage treatment facility, according to Public Utilities Director Lee Blocker.

"City officials seem to agree that smells come from the city's sewage treatment lagoon in northeast Lincoln because the lagoon is not the proper method for treating the high-strength wastes from the ADM plant."

Blocker said the city has offered to let ADM tie into the city sewer system once the Theresa St. plant, now overloaded, is expanded. The tieup, he said, would be "at no cost to the city."

Offered To Pay

ADM officials earlier had

hoped to empty their sewage into the city's Theresa St. treatment plant and had offered then to pay for rerouting the sewage.

Plans to reroute the sewage were discarded because the treatment plant at that time was already overloaded, being underdesigned when expanded.

James Randall, executive vice president of ADM, said in a recent telephone interview that the wastes coming from the soy bean refinery plant are "indicative of the vegetable oil refinery operation."

Common Problem

"Everyone in the vegetable oil refinery business has a disposal problem," Randall said.

"Whether it becomes a pollution problem depends on the capacity of the treatment

facility receiving the wastes," he continued.

He said that in Decatur, Ill., ADM's waste strengths are many times higher than in Lincoln and the Decatur wastes go to a treatment plant designed to handle industrial wastes.

Cooperation Praised

"The wastes are not indicative of a poor operation" in Lincoln, he said. Randall also had high praise for the cooperation of Lincoln officials.

A key question to some observers is why a soybean refinery was allowed in the first place to use a lagoon for a treatment system.

T. A. Filipi, head of the state health department's environmental health services, told a meeting of Chamber of Commerce agriculture committee members the plant never

should have been built and that he had misgivings from the start about its using the lagoon.

Wrong Design

The lagoon's problem is that it is not designed to handle the strength or type of wastes which comes from the soybean refinery plant.

Apparently, according to reports of city officials after the first outbreak of the odors in 1969, information supplied by ADM was inaccurate — indicating that the lagoon with aerators installed could handle the strength of waste.

Later estimates revealed that the strength would exceed the design limits — the actual samples in late 1969 were 10 times higher than the estimates.

Party Compliments A Bride-Elect

Even though it is one of the short months of the year, June always seems to find room for attractive and popular brides. June, 1971, is no exception to the rule judging from a calendar that is filled to the brim with weddings.

One of the very attractive

brides of the month that begins tomorrow is Miss Susan Bair whose marriage to Stuart Elliott will be solemnized on Saturday, June 12.

Miss Bair, of course, has been a busy young lady, but she somehow manages to take time out for numerous pre-nuptial courtesies.

One of her "time outs" was last Friday morning when Mrs. Edgar A. Danielson and her daughter, Mrs. Harvey Schulenberg, complimented the bride-to-be at the home of Mrs. Danielson. The party was a 10 o'clock coffee and a kitchen shower.

In the picture, seated left to

right, are Miss Nancy Schulenberg, Mrs. Harley Bair, Mrs. Alkana Cantrell of Seward; Mrs. Gordon Bair, Miss Bair and Mrs. Schulenberg.

Standing are Mrs. Clarence K. Elliott, mother of the bridegroom, and Mrs. Emil Christensen of Columbus.

Pinewood Bowl A Wedding Background

With Pinewood Bowl as the setting and with arrangements of daisies forming the altar decor, the wedding of Miss Cheryl Hile, daughter of Mr. and Mrs. Joe E. Hile, and William C. Banks, son of Mr. and Mrs. C. W. Banks, took place on Saturday afternoon, May 29. The Rev. Laurence A. Brown of the First Presbyterian Church solemnized the 2 o'clock ceremony, and the wedding music was played by Mark Epp. Steven Pejzar and Bruce McCracken were the vocalists.

Peasant costumes, styled with yellow pima cotton blouses above multi-colored nylon skirts were worn by the attendants, including Mrs. David Spann of Omaha, the matron of honor; bridesmaids Miss Nancy Pettett and Miss Kris Boyum, and bridesmatron Mrs. Douglas Callen of Kenmore, N.Y. Their wide-brimmed hats were of white straw and they carried baskets of daisies.

George Hinman served as best man, and the corps of ushers included Douglas Callen of Kenmore, N.Y.; Mark Nicholson of Geneva; Bart Becker of Schuyler; David Spann of Omaha; Henry Metz of Sioux City, Iowa; Lee McIntyre of Hastings; Alan McCracken, Robert Semrad, George Beilby, Gale Cooper and Gary Paulson.

A gown of organza over taffeta accented with venetian lace, was chosen by the bride for her wedding. The lace, which patterned the Empire bodice, fashioned the ring collar and ornamented the Bishop sleeves in a diagonal motif, and beneath the Empire waist the A-line, silhouette skirt had accentuated back fullness. Her train-length mantilla veil was edged with lace and was held to the head with a bandeau of lillies-of-the-valley, and she carried a basket of spring flowers.

Mr. Banks and his bride will reside in Lincoln during the summer.

The bride will be graduated in June from the University of Nebraska where she is a

member of Chi Omega sorority. Mr. Banks also will be graduated from the University of Nebraska next month, and plans to enter the Denver University College of Law in the fall.

Coed Has Evening Ceremony

The wedding of Miss Mary Louesa Spray, daughter of Mr. and Mrs. Donald L. Spray of Sargent, and LeRoy Dean Miller, of Bladen, son of Mr. and Mrs. Reuben Miller of South Sioux City, took place on Friday evening, May 28, at the First Christian Church in Sargent. The Rev. Norvin Condy solemnized the 7:30 o'clock ceremony.

Floor-length, Empire frocks of pastel green and yellow taffeta were worn by the three attendants including Miss Betty Spray of Kearney who was her sister's maid of honor and who was in the green shade; bridesmaid Miss Phyllis Spray of York, also a sister of the bride, and bridesmatron Mrs. Robert Coon of York, both of whom wore frocks in the yellow tone. Their costumes were completed with white straw hats, and they carried brown wicker baskets filled with daisies and ivy.

Larry Miller of Lytton, Iowa, served his brother as best man, and the groomsmen

and ushers included Jerry Kingston of Hooper; Bernard Boyson, Paul Kuska, Tom Synovec, Rick Swieter, all of Lincoln, and Kenneth Spray brother of the bride.

The bride appeared in a gown of crepe-backed stain and lace. The lace, in a daisy motif, fashioned the Empire bodice with its high neckline and Bishop sleeves, and the floor-length skirt was in the A-line, silhouette mode. Her chapel-length veil of embroidered Brussels lace is a family heirloom, having been worn by the bride's great-aunt, and also by her mother.

Mr. Miller and his bride will reside at 1718 N St. in Lincoln.

The bride is a senior at Hastings College where she is a member of Pi Alpha Lambda sorority and where she is majoring in history.

Mr. Miller is a graduate of the University of Nebraska, and now is teaching mathematics and coaching at Bladen.

"Fashion On Wheels" Begins Rolling

Perhaps it is their belief in that old adage "never put off until tomorrow what you can do today" that has made the members of the Lincoln General Hospital Auxiliary so successful with their various projects.

It is a well known fact that most of us associate September with the opening of the football season and school — But not the Lincoln General Hospital Auxiliary. The date for its annual fashion show has been decided — It will be on Tuesday, Sept. 21, and the plans for it are underway even at this early date.

An important of the planning is the naming of committee chairmen, and that has been accomplished. The committee chairmen began what probably will be a long series of meetings, last Wednesday.

The co-chairmen for the fashion show will be Mrs. Roy A. Tramel and Mrs. Virgil J. Wiesner, but the co-

chairmanships don't end at the very top. Mrs. Lester W. Harvey and Mrs. Charles Huff, for instance, are co-chairmen of advertising; Mrs. Donald Hand and Mrs. Robert Camp, co-chairmen of the general admission tickets; Involved with patrons and sponsors are co-chairmen Mrs. Frank P. Stone and Mrs. John Dean, while the production co-chairmen are Mrs. Quentin Quay and Mrs. Robert F. Pentiss.

Other committee chairman include Mrs. John Baldwin, cast party; Mrs. Harry E. Weber, courtesy; Mrs. Donn E. Davis, models; Mrs. M. E. Allensworth, out of town tickets; Mrs. Richard Dinsdale, program; Mrs. Palmer Johnson, publicity; Mrs. Robert L. Anderson, strike settings chairman; Mrs. Donald J. Smith, technical assistant to the producer and commentator, Leta Powell Drake; Mrs. Neil Ruckdashel, ushers; Mrs. Ben James, pro-

gram design; and Mrs. Merk Hobson.

The 1971 fashion as the title of "Fashion on Wheels," and as usual there will be two performances — 1:30 o'clock in the afternoon and 8 o'clock in the evening. And also as usual, the show will be at the Stuart Theater.

In the picture, seated left to right, are Mrs. Tramel, Mrs. Wiesner, Mrs. Leon A. Nefsky, Auxiliary treasurer; Mrs. Harvey, Mrs. Davis, Mrs. Allensworth and Mrs. Donald Hand.

Standing, left to right, are Mrs. Camp, Mrs. Dean, Mrs. Quay, Mrs. Dinsdale, Mrs. Johnson, Mrs. Anderson, Mrs. Smith, Mrs. Ruckdashel, Mrs. John P. Miller, president of the Lincoln General Hospital Auxiliary; Mrs. Allen Wilson, director of volunteers at Lincoln General; Leta Powell Drake, producer-commentator; Mrs. James Dean Tschetter who is in charge of stage design, and Mrs. Hobson.

Town Talk

The world — that part of it labeled "Lincoln", that is — is filled with a number of things — and many are planned for the very near future. We hear that the LCC Swinging committee is sending a communique to the weatherman, requesting that all rain barrels be emptied before mid June — That is Swinging time.

And then, of course, there are activities to wind up a happy season — one of these is next Saturday when the distaff side of the Fifty Fifty Dancing Club will have its annual ladies' luncheon. This year the party will be held at the University Club where the festivities will begin at 12:45 o'clock.

Mrs. Ben Fischer is chairman of the arrangements committee which also includes Mrs. Cornelius Anderson and Mrs. Roy Randolph.

But of all the busy people in town, the June brides are the busiest — right now we have Miss Carolyn Chapin, whose marriage to John Hoelscher will take place on Saturday, June 12. Miss Chapin has been on the hop, skip and jump in recent weeks, with one hostess after another beckoning her.

We already have mentioned some current parties for the bride-elect, so this morning we are turning our attention to the future — to Wednesday, June 9, to be specific. That is the day that Mrs. Joseph Soshnik, Mrs. Durward Varner and Mrs. Merk Hobson will be luncheon hostesses when they entertain at the home of Mrs. Soshnik. During the afternoon hours the soon-to-be-bride will be presented with a miscellaneous shower.

The following day — June 10, is Miss Chapin's birthday, and in celebration of the event Miss Chapin's mother, Mrs. G. R. Ross and Mr. Ross, will entertain at dinner. Their guest list will include out-of-towners from St. Louis, Mo., who will be in town for the wedding.

News From Morning Ceremony

The White House

Frances Lewine of the Associated Press tells us about Tricia Nixon's plans for her wedding — Here is her story:

Washington — Tricia Nixon has decided to depart from the White House in her wedding gown, with bridegroom Edward Cox in cutaway, instead of making a secret exit from the White House as the Johnson brides did.

Pres. Secretary Constance Stuart told reporters Thursday: "Tricia would like to leave the White House in her wedding gown."

The two will drive off together down the curving paths of the White House out the northeast gate on their way to a honeymoon spot, which they do hope to keep secret.

The White House also announced today the romantic musical selections from Johann Bach to Leonard Bernstein which will be played by the United States Army Strings Ensemble as the 400 wedding guests are being seated in the Rose Garden for the 4 p.m. nuptials Saturday, June 12.

The 22-member Army Strings will be conducted by Chief Warrant Officer Frank Charello, a former Marine, native of New Orleans who studied at Harvard University.

Other military musical units will get in on the wedding, too. The six-piece U.S. Air Force String Ensemble will play in the East Garden, where the wedding guests will assemble first. The U.S. Marine Corps harp and flute duo will play in the diplomatic reception room as the guest leave the wedding ceremony garden site to attend the reception inside the White House.

Bill Harrington and his 15-piece orchestra from New York will be providing the music for wedding reception dancing in the East Room.

The White House will be making a special arrangement for the out-of-town wedding guests, providing buses to transport them from their hotels to the White House. And two accordianists have been assigned from the U.S. Marine Corps orchestra to ride the buses and provide musical entertainment en route.

The wedding of Miss Twila Eitzmann, daughter of Mr. and Mrs. Otto Eitzmann of Hardy, and Robert G. Avey, son of Mrs. Donald Avey and the late Mr. Avey, took place on Saturday morning, May 29, at St. Teresa's Church. The lines of the 10 o'clock ceremony were read by the Rev. Fr. Patrick Murphy.

The three attendants, were Mrs. Burley Copas of Beatrice, who was her sister's matron of honor; and bridesmatrons Mrs. Stanley Lang of Edgar, sister of the bride, and Mrs. George Woodward of Valley.

William Avey served his brother as best man, and the groomsmen and ushers included Ron Strosburger of Holdrege, George Woodward, Jr., of Valley; Roger Eitzmann of Sidney, Iowa; and Arlen Magnuson of Denver, Colo.

The bride appeared in a gown of crepe and Alencon lace. The lace which circled the Empire waistline, also ornamented the mandarin collar and cuffed the sheer bouffant sleeves was repeated to border the chapel-length train which completed a softly gathered A-line silhouette skirt. The bouffant, shoulder-length veil of illusion was held in place with a cluster of carnations and greenery, and she carried a cascade of white roses and carnations.

The bride attended the Lincoln School of Commerce.

Mr. Avey was graduated from the University of Nebraska and received his law degree from the University of Denver.

A Double Winner

This is the year of the double winner for Nebraska playwright Joseph Baldwin of Lincoln. In the 1971 one-act playwrighting competition sponsored by the Drama Workshop of Des Moines, Iowa, his play "The Fat Man" won first prize, and his play "Have Exact Fare" won third prize in the same nationwide competition.

Earlier this spring, two of Baldwin's plays were declared winners in the 1970-71 playwrighting contest conducted by Jacksonville University, Florida.

Productions of his plays will be seen in Florida in June, and in Des Moines later during the theatre season.

A professor of theatre at the University of Nebraska, Baldwin writes short satirical and most absurd pieces as relaxation from the academic grind.

He is already credited with two other plays "The House Within The House Within" and "Loosebough the First" both of which have been produced at campuses around the country. A one-act play, "Free Bus to the Shopping Center," was published and also produced at several campuses.

In addition to writing plays and teaching playwrighting, Baldwin has been interested in encouraging young playwrights. Each year he officiates at a playwrighting contest at the University of Nebraska, which draws scripts from students all over the nation.

Spring Rain
WATER SOFTENER

If your cheer, lightweight kitchen curtains become greyed, greasy and faded, soak them in a solution of ½ cup each Spring Rain Water Softener and detergent to 1 gallon of water. Then wash on gentle cycle of washing machine.

Especially for Midwest hard water — 100% non-precipitating.

Party Compliments A Bride-Elect

Even though it is one of the short months of the year, June always seems to find room for attractive and popular brides. June, 1971, is no exception to the rule judging from a calendar that is filled to the brim with weddings.

One of the very attractive

brides of the month that begins tomorrow is Miss Susan Bair, whose marriage to Stuart Elliott will be solemnized on Saturday, June 12.

Miss Bair, of course, has been a busy young lady, but she somehow manages to take time out for numerous pre-nuptial courtesies.

One of her 'time outs' was last Friday morning when Mrs. Edgar A. Danielson and her daughter, Mrs. Harvey Schulenberg, complimented the bride-to-be at the home of Mrs. Danielson. The party was a 10 o'clock coffee and a kitchen shower.

In the picture, seated left to

right, are Miss Nancy Schulenberg, Mrs. Harley Bair, Mrs. Alkana Cantrell of Seward; Mrs. Gordon Bair, Miss Bair and Mrs. Schulenberg.

Standing are Mrs. Clarence K. Elliott, mother of the bridegroom, and Mrs. Emil Christensen of Columbus.

Pinewood Bowl A Wedding Background

With Pinewood Bowl as the setting and with arrangements of daisies forming the altar decor, the wedding of Miss Cheryl Hile, daughter of Mr. and Mrs. Joe E. Hile, and William C. Banks, son of Mr. and Mrs. C. W. Banks, took place on Saturday afternoon, May 29. The Rev. Laurence A. Brown of the First Presbyterian Church solemnized the 2 o'clock ceremony, and the wedding music was played by Mark Epp. Steven Pejsar and Bruce McCracken were the vocalists.

Peasant costumes, styled with yellow pima cotton blouses above multi-colored nylon skirts were worn by the attendants, including Mrs. David Spann of Omaha, the matron of honor; bridesmaids Miss Nancy Pettett and Miss Kris Boyum, and bridesmatron Mrs. Douglas Callen of Kenmore, N.Y. Their wide-brimmed hats were of white straw and they carried baskets of daisies.

George Hinman served as best man, and the corps of ushers included Douglas Callen of Kenmore, N.Y.; Mark Nicholson of Geneva; Bart Becker of Schuyler; David Spann of Omaha; Henry Metz of Sioux City, Iowa; Lee McIntyre of Hastings; Alan McCracken, Robert Semrad, George Beilby, Gale Cooper and Gary Paulson.

A gown of organza over taffeta accented with venetian lace, was chosen by the bride for her wedding. The lace, which patterned the Empire bodice, fashioned the ring collar and ornamented the Bishop sleeves in a diagonal motif, and beneath the Empire waist the A-line, silhouette skirt had accentuated back fullness. Her train-length mantilla veil was edged with lace and was held to the head with a bandeau of lillies-of-the-valley, and she carried a basket of spring flowers.

Mr. Banks and his bride will reside in Lincoln during the summer.

The bride will be graduated in June from the University of Nebraska where she is a

member of Chi Omega sorority. Mr Banks also will be graduated from the University of Nebraska next month, and plans to enter the Denver University College of Law in the fall.

Coed Has Evening Ceremony

The wedding of Miss Mary Louesa Spray, daughter of Mr. and Mrs. Donald L. Spray of Sargent, and LeRoy Dean Miller, of Bladen, son of Mr. and Mrs. Reuben Miller of South Sioux City, took place on Friday evening, May 28, at the First Christian Church in Sargent. The Rev. Norvin Condy solemnized the 7:30 o'clock ceremony.

Floor-length, Empire frocks of pastel green and yellow taffeta were worn by the three attendants including Miss Betty Spray of Kearney who was her sister's maid of honor and who was in the green shade; bridesmaid Miss Phyllis Spray of York, also a sister of the bride, and bridesmatron Mrs. Robert Coon of York, both of whom wore frocks in the yellow tone. Their costumes were completed with white straw hats, and they carried brown wicker baskets filled with daisies and ivy.

Larry Miller of Lytton, Iowa, served his brother as best man, and the groomsmen

and ushers included Jerry Kingston of Hooper; Bernard Boyson, Paul Kuska, Tom Synovec, Rick Swieter, all of Lincoln, and Kenneth Spray brother of the bride.

The bride appeared in a gown of crepe-backed stain and lace. The lace, in a daisy motif, fashioned the Empire bodice with its high neckline and Bishop sleeves, and the floor-length skirt was in the A-line, silhouette mode. Her chapel-length veil of embroidered Brussels lace is a family heirloom, having been worn by the bride's great-aunt, and also by her mother.

Mr. Miller and his bride will reside at 1718 N St. in Lincoln.

The bride is a senior at Hastings College where she is a member of Pi Alpha Lambda sorority and where she is majoring in history.

Mr. Miller is a graduate of the University of Nebraska, and now is teaching mathematics and coaching at Bladen.

"Fashion On Wheels" Begins Rolling

Perhaps it is their belief in that old adage 'never put off until tomorrow what you can do today' that has made the members of the Lincoln General Hospital Auxiliary so successful with their various projects.

It is a well known fact that most of us associate September with the opening of the football season and school — But not the Lincoln General Hospital Auxiliary. The date for its annual fashion show has been decided — It will be on Tuesday, Sept. 21, and the plans for it are underway even at this early date.

An important of the planning is the naming of committee chairmen, and that has been accomplished. The committee chairmen began what probably will be a long series of meetings, last Wednesday.

The co-chairmen for the fashion show will be Mrs. Roy A. Tramel and Mrs. Virgil J. Wiesner, but the co-

chairmanships don't end at the very top. Mrs. Lester W. Harvey and Mrs. Charles Huff, for instance, are co-chairmen of advertising; Mrs. Donald Hand and Mrs. Robert Camp, co-chairmen of the general admission tickets; Involved with patrons and sponsors are co-chairmen Mrs. Frank P. Stone and Mrs. John Dean, while the production co-chairmen are Mrs. Quentin Quay and Mrs. Robert F. Pentiss.

Other committee chairman include Mrs. John Baldwin, cast party; Mrs. Harry E. Weber, courtesy; Mrs. Donn E. Davis, models; Mrs. M. E. Allensworth, out of town tickets; Mrs. Richard Dinsdale, program; Mrs. Palmer Johnson, publicity; Mrs. Robert L. Anderson, strike settings chairman; Mrs. Donald J. Smith, technical assistant to the producer and commentator, Leta Powell Drake; Mrs. Neil Ruckdashed, ushers; Mrs. Ben James, pro-

gram design; and Mrs. Merk Hobson.

The 1971 fashion as the title of "Fashion on Wheels," and as usual there will be two performances — 1:30 o'clock in the afternoon and 8 o'clock in the evening. And also as usual, the show will be at the Stuart Theater.

In the picture, seated left to right, are Mrs. Tramel, Mrs. Wiesner, Mrs. Leon A. Nefsky, Auxiliary treasurer; Mrs. Harvey, Mrs. Davis, Mrs. Allensworth and Mrs. Donald Hand.

Standing, left to right, are Mrs. Camp, Mrs. Dean, Mrs. Quay, Mrs. Dinsdale, Mrs. Johnson, Mrs. Anderson, Mrs. Smith, Mrs. Ruckdashed, Mrs. John P. Miller, president of the Lincoln General Hospital Auxiliary; Mrs. Allen Wilson, director of volunteers at Lincoln General; Leta Powell Drake, producer-commentator; Mrs. James Dean Tschetter who is in charge of stage design, and Mrs. Hobson.

INTRODUCING
Mr. White-To-The-Point

BY PHYLLIS WOOLLEN

We're on pins and needles, but we'll come to the "point" — in this case one of the latest acquisitions of the Lincoln Children's Zoo, an albino porcupine who has appropriately been named White. Acquired on April 25, the porcupine weighs approximately 10 pounds and is not quite an adult. White was presented to the zoo by the game commission, and was found in Halsey State Forest.

While one tends to associate the porcupine with its sharp quills, the porcupine is actually a life saver to both animals and man. Because of its slow movement, the porcupine is one of the only North American animals that can be run down and killed by hand, making him easy prey for the hunter lost in the woods or the starving animal.

Porcupines are of the rodent family, and live in timberland. Their two sharp front teeth are typical of rodents, and they use those teeth to gnaw through the outer bark

of a tree in order to get to their food which is the cambium layer of bark.

The quills of the porcupine, which are somewhat hidden under his long hair growth, are lined with microscopic barbs that penetrate the skin of an animal, and expand once they enter the skin. Because of their sharpness, the barbs continue to penetrate into an aggressor once they are released from the porcupine, often eventually killing the animal. The porcupine's greatest defense mechanism is his swift tail that he swings at an attacker. The Achilles heel of this animal is his soft stomach which is void of both quills and hair. An aggressor will try to overturn the porcupine to be able to attack his stomach.

White has a better chance of survival in captivity, since his white color does not give him the protection of his grey-brown brothers. He will be housed in the nursery area of the Children's Zoo, and as an albino porcupine he is truly one in a million.

ABBY

DEAR ABBY: One of your readers thought shotgun weddings were the only answer when a girl gets into trouble. Let me tell you my experience as a shotgun bride.

I married because I was pregnant, and my husband really had a gun in his back. Before my fifth anniversary, I had five babies, three of which were in diapers at one time. I had no running water, no toilet facilities, inside or out, and we all lived in three small rooms. I never got to go out, with or without my children. Yes, my children have a legal name, but I don't know if you would call them legal or not. You see, their father never paid the doctor's delivery fees. A marriage doesn't mean your husband will support you, or love you, or take care of you.

I'm now separated, not divorced, because he claims he "loves" me and the children and he won't give us up. But he hasn't visited us or paid me any support in two years.

If my unmarried daughter ever gets pregnant I will never insist on a shotgun wedding. What's in a "name"? I have TWO names, but what good are they when I have five children and no husband?

STUCK

DEAR ABBY: I am a Catholic and I'm proud of it. Since Catholics don't believe in divorce, even a baby on the way is not a good enough reason for me to use up the one marriage I've got coming if I didn't really love the guy and planned to stay married to him for the rest of my life. I am only 14, but I am . . .

LOOKING AHEAD

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

June bride-elect, Miss Mary Brunell, was the honored guest at a personal shower on Thursday evening May 27, when Mrs. Robert Hester entertained at her home.

The daughter of Mr. and Mrs. William Jay Brunell of Omaha, Miss Brunell has named Saturday, June 5, as the date of her marriage to Robert L. Hovey, son of Mr. and Mrs. Richard Hovey of O'Neill.

Watching Miss Brunell open one of her shower gifts are from left: Mrs. Milton Hester, Mrs. Helen Maser, Mrs. Bob Hester, Mrs. William Brunell (mother of the bride-elect), and Miss Brunell.

The bidding:
North East South West
Pass 1NT 4♣ Pass

Opening lead — five of diamonds.

It is impossible to arrive at the best contract on every deal you play, and this is especially true when the opponents harass you with preemptive bids. For a typical example, consider this hand which occurred in the match between Italy and North

America in 1967.

At the first table, the American East opened with a notrump (16 to 18) and the Italian South overcalled with four clubs. It was difficult for either East or West to compete safely at this point and the declarer wound up going down a pair against perfect defense.

West led a diamond. East won with the queen and shifted to the king of hearts, smartly overtaken by West who shifted to a spade. As a result, South lost five tricks to go down two — 100 points.

At the second table, with an Italian pair now East-West, the bidding went:

North East South West
Pass 1♣ 4♣ 4♦

Garozzo, playing the Neapolitan Club system, opened with one club (artificial). This indicated at least 17 high-card points (with no upper limit), and the club bid could furthermore have been based

on any distribution whatsoever.

Forquet (West) was faced with a trying decision when the American South leaped to four clubs. He elected to bid four diamonds and Garozzo had no choice but to raise him to five. This contract had to go down one, and the American pair scored 100 points at this table also.

Note that four hearts cannot be defeated with proper play by declarer, but that at neither table was the suit ever mentioned.

You can't win 'em all!

Breakfast
Planned

Early morning loving members of Lincoln's Credit Women International will gather at Hotel Radisson-Cornhusker the first thing Tuesday morning, June 1, for a 7 o'clock breakfast.

Scholarship
Month Set

Governor J. J. Exon named May as the American Business Women's Association Scholarship Month to recognize the Association's scholarship program.

During the past year, ABWA allocated over \$200,000 through local chapter scholarship programs and \$75,000 in grants and interest-free loans. This year, over 900 chapters throughout the nation will award scholarships advancing the 1971 theme — "Equality Through Responsibility."

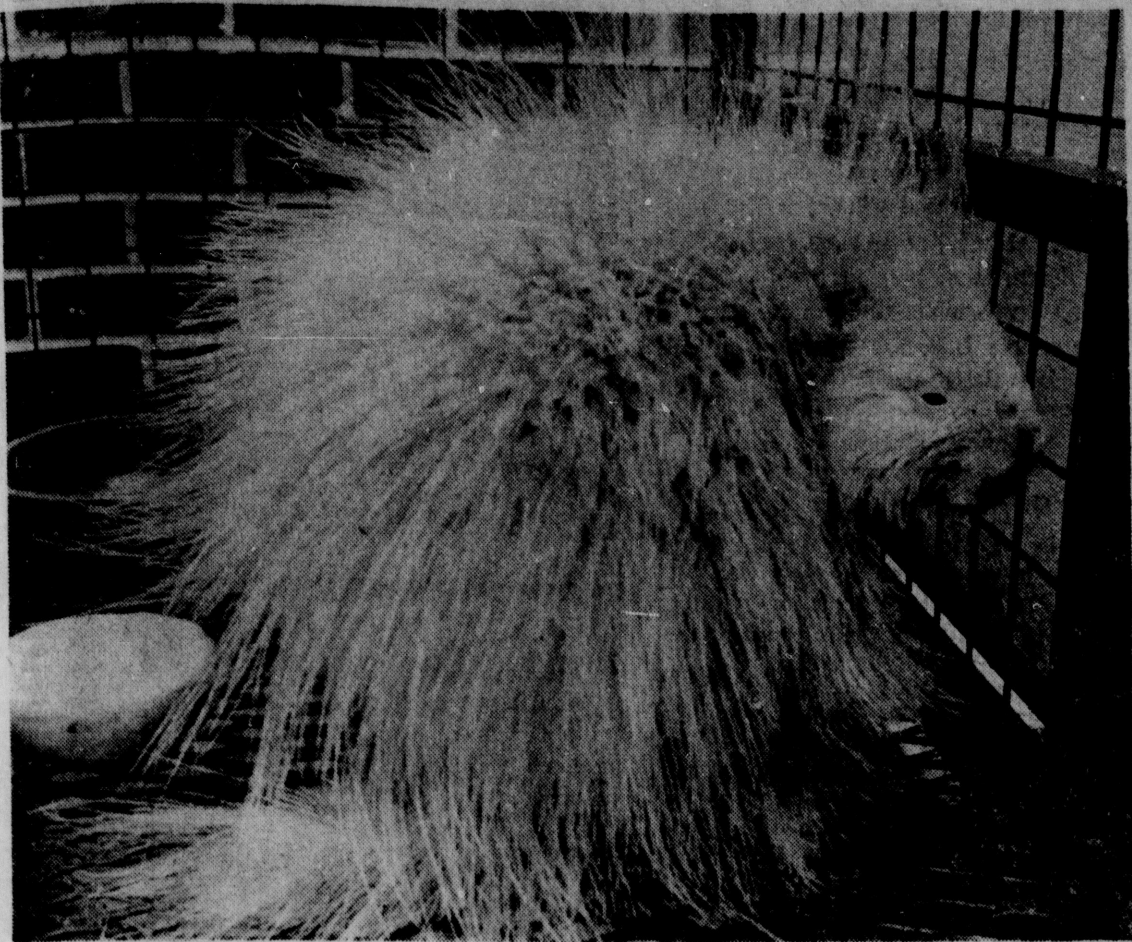

Local ABWA scholarships for this year were presented at a special meeting on Tuesday, May 25.

A Luncheon

The Mother's Club of Alpha Xi Delta honored Mrs. James Arnold Saturday at a retirement luncheon. Mrs. Arnold, who is known to the many Alpha Xi Deltas as Lulu, has been house mother for the past fifteen years.

The luncheon was held at the Kellogg Center at 11 o'clock today. Mrs. Arnold plans to remain in Lincoln for a while and then move to California.

INTRODUCING Mr. White-To-The-Point

BY PHYLLIS WOOLLEN

We're on pins and needles, but we'll come to the "point" — in this case one of the latest acquisitions of the Lincoln Children's Zoo, an albino porcupine who has appropriately been named White. Acquired on April 25, the porcupine weighs approximately 10 pounds and is not quite an adult. White was presented to the zoo by the game commission, and was found in Halsey State Forest.

While one tends to associate the porcupine with its sharp quills, the porcupine is actually a life saver to both animals and man. Because of its slow movement, the porcupine is one of the only North American animals that can be run down and killed by hand, making him easy prey for the hunter lost in the woods or the starving animal.

Porcupines are of the rodent family, and live in timberland. Their two sharp front teeth are typical of rodents, and they use those teeth to gnaw through the outer bark

of a tree in order to get to their food which is the cambium layer of bark.

The quills of the porcupine, which are somewhat hidden under his long hair growth, are lined with microscopic barbs that penetrate the skin of an animal, and expand once they enter the skin. Because of their sharpness, the barbs continue to penetrate into an aggressor once they are released from the porcupine, often eventually killing the animal. The porcupine's greatest defense mechanism is his swift tail that he swings at an attacker. The Achilles heel of this animal is his soft stomach which is void of both quills and hair. An aggressor will try to overturn the porcupine to be able to attack his stomach.

White has a better chance of survival in captivity, since his white color does not give him the protection of his grey-brown brothers. He will be housed in the nursery area of the Children's Zoo, and as an albino porcupine he is truly one in a million.

ABBY

DEAR ABBY: One of your readers thought shotgun weddings were the only answer when a girl gets into trouble. Let me tell you my experience as a shotgun bride.

I married because I was pregnant, and my husband really had a gun in his back. Before my fifth anniversary, I had five babies, three of which were in diapers at one time. I had no running water, no toilet facilities, inside or out, and we all lived in three small rooms. I never got to go out, with or without my children. Yes, my children have a legal name, but I don't know if you would call them legal or not. You see, their father never paid the doctor's delivery fees. A marriage doesn't mean your husband will support you, or love you, or take care of you.

I'm now separated, not divorced, because he claims he "loves" me and the children and he won't give us up. But he hasn't visited us or paid me any support in two years.

If my unmarried daughter ever gets pregnant I will never insist on a shotgun wedding. What's in a "name"? I have TWO names, but what good are they when I have five children and no husband?

STUCK

DEAR ABBY: I am a Catholic and I'm proud of it. Since Catholics don't believe in divorce, even a baby on the way is not a good enough reason for me to use up the one marriage I've got coming if I didn't really love the guy and planned to stay married to him for the rest of my life. I am only 14, but I am . . .

LOOKING AHEAD

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

June bride-elect, Miss Mary Brunell, was the honored guest at a personal shower on Thursday evening May 27, when Mrs. Robert Hester en-

tertained at her home.

The daughter of Mr. and Mrs. William Jay Brunell of Omaha, Miss Brunell has named Saturday, June 5, as the date of

her marriage to Robert L. Hovey, son of Mr. and Mrs. Richard Hovey of O'Neill.

Watching Miss Brunell open one of her shower gifts are

from left: Mrs. Milton Hester, Mrs. Helen Maser, Mrs. Bob Hester, Mrs. William Brunell (mother of the bride-elect), and Miss Brunell.

The bidding:

North East South West
Pass 1NT 4♣ Pass

Opening lead — five of diamonds.

It is impossible to arrive at the best contract on every deal you play, and this is especially true when the opponents harass you with preemptive bids. For a typical example, consider this hand which occurred in the match between Italy and North

America in 1967.

At the first table, the American East opened with a notrump (16 to 18) and the Italian South overcalled with four clubs. It was difficult for either East or West to compete safely at this point and the declarer wound up going down a pair against perfect defense.

West led a diamond. East won with the queen and shifted to the king of hearts, smartly overtaken by West who shifted to a spade. As a result, South lost five tricks to go down two — 100 points.

At the second table, with an Italian pair now East-West, the bidding went:

North East South West
Pass 1♣ 5♦ 4♣ 4♦

Garozzo, playing the Neapolitan Club system, opened with one club (artificial). This indicated at least 17 high-card points (with no upper limit), and the club bid could furthermore have been based

on any distribution whatsoever.

Forquet (West) was faced with a trying decision when the American South leaped to four clubs. He elected to bid four diamonds and Garozzo had no choice but to raise him to five. This contract had to go down one, and the American pair scored 100 points at this table also.

Note that four hearts cannot be defeated with proper play by declarer, but that at neither table was the suit ever mentioned.

You can't win'em all!

Breakfast Planned

Early morning loving members of Lincoln's Credit Women International will gather at Hotel Radisson-Cornhusker the first thing Tuesday morning, June 1, for a 7 o'clock breakfast.

Scholarship Month Set

Governor J. J. Exon named May as the American Business Women's Association Scholarship Month to recognize the Association's scholarship program.

During the past year, ABWA allocated over \$280,000 through local chapter scholarship programs and \$75,000 in grants and interest-free loans. This year, over 900 chapters throughout the nation will award scholarships advancing the 1971 theme — "Equality Through Responsibility."

Local ABWA scholarships for this year were presented at a special meeting on Tuesday, May 25.

A Luncheon

The Mother's Club of Alpha Xi Delta honored Mrs. James Arnold Saturday at a retirement luncheon. Mrs. Arnold, who is known to the many Alpha Xi Deltas as Lulu, has been house mother for the past fifteen years.

The luncheon was held at the Kellogg Center at 11 o'clock today. Mrs. Arnold plans to remain in Lincoln for a while and then move to California.

Survey: Red China's Admission To U.N. Now Favored

By LOUIS HARRIS

In a sharp reversal of public opinion Americans now for the first time favor admission of Communist China to the United Nations, by 48% to 27%, although 25% are still on the fence. Just after the 1968 elections, the public opposed admission of the Peking government to the U.N. by 54% to 32%.

Between May 10 and 15, a cross section of 2,497 households was asked once again:

"Each year, the United Nations has considered admitting Communist China to membership. Do you favor or oppose admitting Communist China to the United Nations?"

ADMITTING COMMUNIST CHINA TO U.N.

	Favor	Oppose	Not Sure
1971	48%	27%	25%
1968	22%	54%	24%
1966	29%	47%	24%
1964	10%	73%	17%

The number who favor admission of China to the U.N. has risen nearly fivefold, from a scant 10% in 1964 to today's 48%, while the number opposed was dropping from 73% to 27%. This reversal is one of the most dramatic shifts in American attitudes in recent times.

The same survey also recorded

ed a majority of Americans in favor of diplomatic recognition of the People's Republic of China, by a margin of 55% to 20%. In late 1968, the public opposed recognition, by 44% to 39%, although slim pluralities went along with the idea back in 1966-67.

In this latest survey, as well as in previous years, the public was asked:

"It has been argued that we could deal better with Red China if we recognized Communist China. This would allow us to have an Ambassador in China as we have in other Communist countries. Do you favor or oppose recognition of Communist China?"

DIPLOMATIC RECOGNITION OF COMMUNIST CHINA

	Favor	Oppose	Not Sure
1971	55%	20%	25%
1968	35%	44%	21%
1967	41%	34%	25%
1966	49%	33%	18%

An alternative to straight-out recognition of mainland China and her admission to the U.N. is the so-called "two China" approach. The People's Republic in

LOUIS HARRIS

Sharp Reversal

Peking would be given the major power seat in the U.N. now held by the Nationalist Chinese on Formosa, with its guarantee of permanent membership on the U.N. Security Council, while Taiwan would remain seated in the U.N. as a separate country.

The cross section was asked about this "two China" alternative: "It has been suggested that both Communist China and Nationalist China (Formosa) be made members of the United Nations, as two different countries. Would you favor this as a solution or oppose it?"

TWO CHINAS IN U.N.

	Favor	Oppose	Not Sure
1971	50%	22%	28%
1968	41%	33%	21%
1967	38%	34%	28%
1966	37%	31%	32%

As in the case of directly granting a U.N. seat to mainland China and diplomatic recognition of Peking, the number of Americans in favor of a "two China" United Nations policy has risen steadily over the past five years. Now, among those with opinions on the subject, seating of both Peking and Nationalist China in the U.N. is favored by better than a 2-1 margin.

However, the 50-22% support for a "two China" approach is not substantially greater than the 48-27% for admission of Communist China without reference to protecting the position of Nationalist China. In fact, what makes the survey's results most significant is that after years of opposition to having anything to do with the government on the Chinese mainland, the American people

have now decided the time has come for a real change in our relations to the Peking Communist regime.

Some of this reaction is no doubt due to the sign of thaw from China itself, shown most clearly when it recently invited our table tennis team for a visit. More basic is the growing American recognition that Red China is a major country and that the Communists have been in control there now for over 20 years. What the public is saying is that it is better to maintain communications with other major nuclear powers than not.

On the basic question of unrestricted admission of China to the U.N., it is significant that the only group opposed are persons who voted for George Wallace in 1968:

ADMISSION OF COMMUNIST CHINA TO U.N.

	Favor	Oppose	Not Sure
Nationwide	48%	27%	25%
By Region			
East	49%	25%	26%
Midwest	56%	20%	24%
Border States	41%	33%	26%
South	40%	34%	26%

	51%	27%	22%
West			
By Age			
18-29	57%	23%	20%
30-49	48%	27%	25%
50 and over	43%	28%	29%
By Income			
Under \$5,000	41%	28%	31%
\$5,000-\$9,999	47%	30%	23%
\$10,000-\$14,999	54%	24%	22%
\$15,000 and over	53%	23%	21%
By 1968 Vote			
Voted Humphrey	55%	21%	24%
Voted Nixon	46%	27%	27%
Voted Wallace	40%	43%	17%

The young and the affluent are leading the way, but except for the South, the margins supporting admission of Communist China to the U.N. are substantial across the board.

"June brings tulips, lilies, roses,
"Fills the children's hands with posies."
May is ending in days of sun.
We enter June, the month of brides. The Manx cat is deep in romance. She's a lively old girl. Neutered but not dismayed.
I may put something in the "Cats Magazine" about it.
In "Cats Magazine" cats run little gentle ads about themselves. Here's one:
"Gallahad's Executive (that's the cat's name; some cat) wished to congratulate his illustrious father, Dbl. Ch. White Pine, his beautiful mother, Ch. Iris, his older sister, the lovely White Innocence, and his little friend, Dbl. Ch. Dream, for their grand showing in the All-Eastern Awards . . ."
Gallahad's Executive is quite a cat. Congratulations papa! Congratulations mother! Congrats sister! Hi there, little friend. (We assume "little friend" is used the way the French say "petite amie.")
If Gallahad's Executive comes to town, I'd take him over to the Executives Club. Split a can of sardines.
Thus June begins in a chorus

of catcalls. Captain Bligh (I named her that because her booking sheet at the pound said "male") has a lot of suitors.
They are cheeved-up toms. They have that jaunty look of a used car salesman. They look a little hungover.
Lively times in Shady Acres.
Tearful times in Shady Acres. We sold the old scatter. What to do? To buy, to build — that is the question.
While we think that over, we will go away for the summer. Far, far away.
I said: "Don't even speak to me about it until September."
The children moaned: "Who will take care of Captain Bligh?"
I said: "The neighbors will feed her. And she's surely got plenty of male company."
We are off on journeys that will require a number of airplane flights. Check the baggage in. Get the baggage out.
"Are you sure the taxi driver put the hat box in the back?"
"Of course I'm sure."
"I didn't see it."
"Well, I did."
"I think we ought to make sure."

"Driver! Stop the car, will you?"
"Father, I have to go to the bathroom."
"Ye gods. Why didn't you tell me in the airport?"
This is something you don't read in the travel ads. Something the travel agent doesn't tell you. It's not all moonlight and roses and sailing on the canals of Venice.
Nonetheless, off we go: French Canada, Jamaica, Mexico.
I said: "Put everything in storage — except the gin, leave that out. Ask the neighbors to take care of the cat and the car. Tell the mailman to forward anything that looks like a check and throw the rest away."
The children cried: "We'll miss Captain Bligh!" The house wren wept: "I simply die when I think of all the things I put into this house!"
They all got on the phone and said: "We're all just dying!"
I said: "Let me know where I can send flowers. I'm going out for a long, moist lunch."
Summer time, and the livin' is easy.

"Gallahad's Executive (that's the cat's name; some cat) wished to congratulate his illustrious father, Dbl. Ch. White Pine, his beautiful mother, Ch. Iris, his older sister, the lovely White Innocence, and his little friend, Dbl. Ch. Dream, for their grand showing in the All-Eastern Awards..."

Gallahad's Executive is quite a cat. Congratulations papa! Congratulations mother! Congrats sister! Hi there, little friend. (We assume "little friend" is used the way the French say "petite amie.")

If Gallahad's Executive comes to town, I'd take him over to the Executives Club. Split a can of sardines.

Thus June begins in a chorus

of catcalls. Captain Bligh (I named her that because her booking sheet at the pound said "male") has a lot of suitors.

They are cheeved-up toms. They have that jaunty look of a used car salesman. They look a little hungover.

Lively times in Shady Acres.

Tearful times in Shady Acres. We sold the old scatter. What to do? To buy, to build — that is the question.

While we think that over, we will go away for the summer. Far, far away.

I said: "Don't even speak to

me about it until September."

The children moaned: "Who will take care of Captain Bligh?"

I said: "The neighbors will feed her. And she's surely got plenty of male company."

☆☆☆

We are off on journeys that will require a number of airplane flights. Check the baggage in. Get the baggage out.

"Are you sure the taxi driver put the hat box in the back?"

"Of course I'm sure."

"I didn't see it."

"Well, I did."

"I think we ought to make

sure."

"Driver! Stop the car, will you?"

"Father, I have to go to the bathroom."

"Ye gods. Why didn't you tell me in the airport?"

☆☆☆

This is something you don't read in the travel ads. Something the travel agent doesn't tell you. It's not all moonlight and roses and sailing on the canals of Venice.

Nonetheless, off we go: French Canada. Jamaica. Mexico.

I said: "Put everything in storage — except the gin, leave

that out. Ask the neighbors to take care of the cat and the car. Tell the mailman to forward anything that looks like a check and throw the rest away."

☆☆☆

The children cried: "We'll miss Captain Bligh!" The house wren wept: "I simply die when I think of all the things I put into this house!"

They all got on the phone and said: "We're all just dying!"

I said: "Let me know where I can send flowers. I'm going out for a long, moist lunch."

Summer time, and the livin' is easy.

ARE YOU PLANNING TO MOVE?

One out of five families make an interstate move each year. To avoid problems, the BBB suggests that you:

- ★ Avoid peak periods, such as month-end and holidays.
- ★ Remember — Lowest estimate may not mean best mover.
- ★ Ask for a BBB report, if you don't know the mover.
- ★ Learn actual insurance coverage, the limitations and if the mover self-insures each move.
- ★ Be present when goods are loaded, weighed and unloaded, to note condition of goods each time.
- ★ Report any damage of goods to both the worker and the mover's office.

ASTROLOGICAL FORECAST

By SIDNEY OMARR

Forecast For Monday
Aquarius children rebel at rules; if they understand, they respond. But these youngsters discard dictum, "Do as I say, not as I do." They are reasonable, even though rebellious. Talk to an Aquarius child, not as an inferior but as an equal. Then positive results are more likely to be achieved.

ARIES (March 21-April 19): You may be impatient because some associates seem to procrastinate. Set your own pace. Don't alienate co-workers. Your ally now is Leo individual. Be wary in dealing with Sagittarius.

TAURUS (April 20-May 20): Nothing halfway now—all the way or nothing. Emotions could dominate. Try to involve equal time for logic. You do have to face yourself in morning. Act accordingly. You'll be happier.

GEMINI (May 21-June 20): One closely associated with you appears to make unreasonable demands. Ride with tide. Don't compound error by lashing out in anger. Take time to analyze. Improve public relations.

CANCER (June 21-July 22): Some travel plans may be revised. There are details to be ironed out; don't skip essentials. Relative may be taking too much of your time with trivia. Maintain self-esteem.

LEO (July 23-Aug. 22): Avoid tendency to overextend. Be a comparative shopper. Learn values. Be knowledgeable about quality. Accent is on what you have and how best to utilize it. Child is stubborn.

VIRGO (Aug. 23-Sept. 22): You get what you want only if persistent. Concentrate on goal. Home area may not be tranquil. Make some concessions. Gift purchase now could soothe feelings of loved one. Act accordingly.

LIBRA (Sept. 23-Oct. 22): Perceive hidden meanings. Be aware of subtle nuances. Don't complicate procedures. What you want to know is up close. Take time to look and analyze. Avoid self-deception.

SCORPIO (Oct. 23-Nov. 21): Don't mix business and friendship. See clearly where potential and pitfalls enter picture. One who talks a good game may have little else. Be realistic about assets.

SAGITTARIUS (Nov. 22-Dec. 21): Intuition, trend applies to your personal finances. Check it. Be practical about goals, occupation, dealings with those in authority. Now is time to finish project.

CAPRICORN (Dec. 22-Jan. 19): Opposing attitudes behind scenes. Look ahead. Don't judge superficially. Get at hard core information. Strive for greater independence. Utilize creative abilities. Act accordingly.

AQUARIUS (Jan. 20-Feb. 18): Mate or partner may not be realistic about expenses. Your own punches now seem valid. Follow through on inner feelings. Don't be discouraged by one who is rash, impatient.

PISCES (Feb. 19-Mar. 20): Life low; play waiting game. Time now is for planning. Know this—act accordingly. Contracts, legal papers require careful examination. Don't spread yourself too thin. Solidify efforts.

IF TODAY IS YOUR BIRTHDAY you often are a dilemma to friends, associates. You have a dual nature. You can be realistic and steady, or you can be romantic and practical. You constantly search, seldom satisfied with answers that appear on surface. You are able to collect and classify data. You are on brink of new cycle; you will be going places, doing things.

(To find out more about yourself and astrology, order Sidney Omarr's 30-page book, "The Truth About Astrology," birthdate and 50 cents to Omarr: Booklet, The Lincoln Star, Box 3240, Grand Central Station, New York, N.Y. 10017.)

TODAY, MEMORIAL DAY And ALL DAY TUESDAY 10 to 10

Bus Carrying 46 Falls Into River; No One Killed

Eugene, Ore. (AP) —A school bus with 46 passengers plunged into the McKenzie River. No one was killed, but 16 to 18 sixth-grade pupils were injured. Police said three or four of the children appeared to have suffered serious injuries. The bus from the Springfield School District was returning from a field trip when it left a curve 26 miles east of Eugene. There were 43 pupils, two high school counselors and the driver, Pauline Hendricks, aboard.

RICHMAN GORDMAN 45th and VINE 10 to 10 EVERYDAY 10 to 10 SUNDAY

By Mark Gordon
Star Sports Writer

Cows to Horses

Omaha — Cows and cow pastures have opened a golden career for J. L. Lively.

"I first began riding horses on my parents' farm in Westville, Okla.," says the leading jockey at Ak-Sar-Ben. "We used them as cow horses and I got a lot of practice riding them."

Using his "cow horse" experience, Lively began riding competitively in 1961 for local farmers in match races in secluded cow pastures in Oklahoma. He adds: "You might say I started out in the bushes — cow pastures."

But that didn't stop the diminutive jockey from moving up in the riding business. Although he admits his first years riding at recognized race tracks were less than successful, the Oklahoman has suddenly come into his own. Last year he was the second leading rider at Denver's Centennial Park and this year he placed third at Oaklawn Park in Hot Springs, Ark.

In his first season at Ak-Sar-Ben, last year, Lively placed fourth, guiding home 25 winners, 24 places and 33 shows. But that still left him well behind L. J. Durousseau, who easily captured Ak riding honors for the third straight year in 1970.

"I'm kind of surprised to be leading now — but don't forget there's still a long way to go," he says. "Sure, when Durousseau didn't come back here, it sort of left it (jockey title) more open."

Prefers Midwest Area

Durousseau, who set Ak's single season standard of 96 triumphs in 1969, is campaigning in California.

Riding for seven years, Lively has competed just once at an eastern track (Monmouth Park at Oceanport, N.J.) and he has no intention of returning.

"I was flown in just to ride in one race," he says. "But I don't care to go back again. I like it better here in the Midwest."

And that's proven by his schedule for the past two years. He begins steering horses in February until April at Oaklawn. Then this year he spent a few weeks at Fommer Park, and is now at Ak-Sar-Ben and will compete from July through September at Centennial. He plans to spend 11 days at the Albuquerque, N.M., State Fair meet and then will conclude this year with a jaunt to Sportsman's Park near Chicago.

Although Lively, 27, admits he probably wouldn't have been a jockey if he had been a little bigger, he adds that he tries to keep his weight around 109 consistently even when he's not riding.

"Oh, I get a little bigger in the winter when I'm not riding," he relates. "but I usually don't have much trouble staying down there."

'Fun To Ride'

Lively is not under contract for anyone and he prefers to keep it that way. But he is under "contract" to do the best job he can for whatever horse he is on regardless of the conditions of the race.

"To me it doesn't matter if you're riding in the feature or one of the first races (which usually carry a smaller purse)," he explains, "as long as you have a horse that likes to run, it's fun to ride."

Calling Honest Effort and Stormvogel, the best horses he has ridden at Omaha this season, Lively said he doesn't categorize animals as "dangerous" or "non-dangerous."

"It doesn't matter as long as they run right and you pace them right," he adds.

Other Ak-Sar-Ben jockeys might disagree. With Lively starting to pull away from the jockey pack, a Lively-horse (no pun intended) might be rated dangerous.

—POSTS FINAL ROUND 67—

Trevino Records Memphis Triumph

Memphis, Tenn. (P) — Happy-go-lucky Lee Trevino shot a final round 67 and scored an easy four-stroke victory Sunday in the \$175,000 Danny Thomas Memphis Golf Classic.

The self-styled Merry Mexican from El Paso, Tex., led all the way on the warm and sunny final round and posted a 72-hole total of 288, 12 under par on the Colonial Country Club course.

Trevino picked up \$35,000 for his second victory of the year and the seventh of his relatively brief pro career.

His earnings pushed his career total to over one-half million dollars in five years on the tour and gave him \$115,785 for the year, the fourth consecutive season he's gone over \$100,000.

Trevino, the 1970 leading money winner and Vardon Trophy winner, now is second only to Jack Nicklaus on the season's money winning list.

Tied at second at 272 was a quartet of non-winning tour regulars — Jerry Heard, Randy Wolff, Lee Elder and Hale Irwin.

Heard and Wolff each scored final round 64's on the 6,466-yard par 70 layout that annually yields some of the best scores on the pro tour. Elder had a 66 and Irwin 68.

Don January, with a 67, and first round leader Larry Ziegler, who closed with a 69, were next at 273. Ken Still, with a stunning 63 and Perito Rican veteran Chi Chi Rodriguez, 69, were tied at 274.

Dave Hill, who filed a \$1

million damage suit against the PGA and the Tournament Players Division earlier in the tournament, finished well back in the \$175,000 Danny Thomas Memphis Golf Classic.

The weather, warm, sunny and with practically no winds, provided almost perfect playing conditions for Trevino, who had the lead all the way.

The stocky, swarthy ex-Marine who burst into prominence with his 1968 U.S. Open victory, held a two-stroke lead starting play and didn't let it get away from him.

The closest it got was about halfway through the round when Trevino followed a birdie on the seventh hole with a bogey on the eighth, dropping him back to nine under par.

Elder and Heard, playing about a half hour in front of Trevino,

Unser's Check Far Below '500'

Indianapolis, Ind. (P) — Al Unser, who won Saturday's Indianapolis 500, his second in a row, was presented Sunday night with a check for \$238,454.31 as the Indianapolis Motor Speedway had its second straight million-dollar payoff.

Unser's check was far below the record payoff of \$271,697.72 he earned for winning the 1970 race.

Tony Hulman, president of the Speedway, said that despite a sharp drop in cash accessory prizes this year, the Speedway increased its own prize checks by \$33,293 for a record-breaking total purse of \$1,001,604.22.

Hulman said the accessory prizes dropped more than \$30,000 from last year's \$205,595.

Second-place finisher Peter Revson of New York City, a member of Team McLaren which dominated the field most of the month of May, won \$103,198.24.

Third-place finisher and three-time Indy 500 A. J. Foyt Jr. of Houston, Tex., won \$64,759.24. Fourth-place finisher Jim Malloy of Denver, Colo., took home a check of \$38,669.24.

Speedway officials made three changes Sunday in race standings and studied some

possible changes in ground rules.

Twenty-eight persons—23 news media photographers, four drivers and a Speedway guard—carried moments of Unser's record-smashing, second straight victory in the form of injuries ranging from minor cuts and bruises to severe burns and broken bones. The most important shift from unofficial standings announced Saturday advanced 40-year-old Jim Malloy, who crashed on the pace lap last year before the race had started, from fifth to fourth place.

The shift pushed Bill Vukovich, whose father, Billy Vukovich won the 500 twice, from fourth to fifth. Chief timer and scorer Richard E. Sauer said Malloy beat the 27-year-old Vuky by 1.12 seconds when the veteran was given back a lap that had been overlooked in the preliminary scoring.

Peter Revson, who drove the only one of the favored Mark 16 McLarens that finished the race, remained in second place, 22.88 seconds back of Al Unser.

A. J. Foyt Jr. missed out on his attempt at an unprecedented fourth 500 victory but finished third, 2 minutes 1.84 seconds or more than two laps back of the winner.

The race started with an accident as the pace car, driven by Indianapolis auto dealer

Eldon Palmer, overshot the pits and plowed sideways into a photographers' stand just inside the first turn. Astronaut John Glenn, a passenger, was only shaken up. Speedway owner Tony Hulman another guest, suffered an ankle sprain.

Twenty-three of the 45 cameramen on the stand were hurt, including Dr. Vicente Alvarez, Buenos Aires physician and auto racing buff, who was given the No. 1 seat on the portable stand because of his association with the Indy race since 1958.

Dr. Alvarez, who writes and photographs for so many newspapers and magazines that he was not accredited to any single one, caught the direct impact of the car's left front wheel. He suffered a basal skull fracture and was listed in critical condition Sunday.

Mike Mosley, only severely injured driver in mishaps during the race proper, was reported in serious condition Sunday with compound fractures of an arm and a leg, and burns.

The photographers' stand, built on a flatbed trailer, has been used for years at the start when no cars are in the pits. It is wheeled out of the way after the start.

Speedway officials never expected a pace

car driver to be unable to stop in the half-mile-long pit area, even though he swerved into it at 110 miles an hour.

Al Bloemker, public relations director at the Indianapolis Motor Speedway, said the management undoubtedly would take a hard look at the whole safety picture.

There were other squabbles over rules governing the race proper.

Foyt lowered the spoiler wing on the tail of his car, designed to push downward for greater traction, during the race. The rule said such spoilers are supposed to be immovable.

Foyt said the rule didn't apply to manual changes during a pit stop and Frank Del Roy, chairman of the USAC technical committee, agreed. Foyt said the winglike tail was slowing him on the straightaways and actually was bent by the high speed air flow.

Roger Penske, who owned the Mark 16 McLaren driven by Mark Donohue and the Lola driven by Englishman David Hobbs, declared he would be back in spite of an infuriating day.

Donohue clearly was the class of the field. He drove the 66th lap at 174.961 m.p.h.

VAN BERG ENTERS TRIO

... Action Getter Going In King's Handicap

By MARK GORDON
Star Sports Writer
Omaha — Ak-Sar-Ben will crown a new "king" today.

The winner of last year's King's Handicap-Zorba II — is dead and a field of nine will seek the \$25,000 added purse when the 43rd running of the King's Handicap is run over a mile and 1-16 at Ak-Sar-Ben.

But the M. H. Van Berg Stable, Inc., which owned Zorba II is out in force to keep the title in its stable. Three Van Berg horses are entered in the race for 3-year-olds and up.

Boldwood, winner of \$28,595 this year but shut out of the winners' circle in two Ak starts, will run the Van Berg colors with Purchaser, who has claimed \$11,263 with one victory and four thirds this year, and Golden Eagle II, who has placed twice in four appearances in 1971.

Boldwood, who suffered a gash between his ears in a starting gate mishap on May 1 here, has run third and fourth in his only Ak starts. The 5-year-old horse, who will carry Don Lewis, has been assigned 15 pounds by racing secretary Harry Krovlitz.

Purchaser will carry the same 15 pounds but Ak-Sar-Ben's leading rider J. L. Lively, while Golden Eagle II will tote 113 pounds.

Although he finished a disappointing fifth in the Board of Governors' Handicap on May 22, Action Getter has been assigned top weight of 118 pounds and Ken Jones. The winner of \$63,724 last year, has won an allowance test at Ak in his only other Omaha race.

Charlie Nicholas' Agronomist, who triumphed in the Governors' chase nine days ago and last year, has been given second top-weight of 116 pounds. Wendell Leeling will try to guide Agronomist over the slightly longer distance than the mile and 70-yard Governors' chase.

The 5-year-old gelding has made just three starts this year after recovering from an operation last August on his stifles on both hind legs. But he has picked up \$12,166 this year.

Last year's runner-up to Zorba II, Mr. Swinger, returns with 114 pounds and Jack Fieselman. The 6-year-old gelding won an allowance chase here May 6, finished second to Agronomist in the Governors and placed sixth in a May 15 outing.

Tripsville, who has run in the money five of six times this season at Fommer Park and Ak will tote 109 pounds and Fred Ecoffey. The only non-money appearance for Tripsville was a sixth in two Governors, but he has two

wins and two places and one third.

Other entrants include Romanullah with 112 pounds and Mike Fredricksen, and French Corners with 109 pounds.

Today's entries:

Monday	
POST TIME 2 P.M.	
First race, purse \$3,600, 4-year-olds and up, claiming price \$3,200, 6 furlongs.	
Flaming Gorgeous (Petersen)	112
Nomike (Anderson)	112
Love Stealer (Lewis)	112
Great Fox (No Boy)	114
Tiger Tom (Lively)	114
Kiss A Apart (Fieselman)	112
Willy F. (Ecoffey)	112
Dream Cadet (No Boy)	117
Second race, purse \$3,800, Nebraska bred 3-year-olds and up, claiming price \$3,500, 6 furlongs.	
Bebbers Image (John Rettele)	106
Never Kenge (Lively)	109
Drifting Fly (Fredericksen)	109
Little Claus (No Boy)	114
Manny's Pits (Ecoffey)	114
M. H.'s Galaxy (No Boy)	114
Cadillac Red (G. Houghton)	117
Hawlin' Wind (No Boy)	114
Vagabond Flyer (No Boy)	114
Royal Fisherman (Fieselman)	114
Gold Buggy (Munsell)	114
Be Dorrin (No Boy)	117
Also: Kay Aye (Chavez) 112.	
Third race, purse \$4,200, 2-year-olds, claiming price \$7,500, 5 furlongs.	
Little Shadow (Caldero)	106
Hipshot (Burns)	114
Mia Star (Stallings)	114
Acornight (No Boy)	114
Country Garb (No Boy)	111
Big Frosty (G. Houghton)	117
Secret Line (No Boy)	111
Goodness Shows (Lewis)	111
Wild Wink (Engle)	114
Vacation Note (No Boy)	114
Jo Shares (Munsell)	114
Justa Joust (Ecoffey)	119
Also: Stratakem (No Boy) 111; Lady Crymure (Fleming) 111; Leading Judge (Powell) 114; County Marcy (Fieselman) 114; Al Joe (Munsell) 114; April Just (No Boy) 114.	
Fourth race, purse \$3,800, 4-year-olds and up, claiming price \$3,500-3,000, 1 mile 70 yards.	
Make Contact (Engle)	114
Time Mark (Gardner)	110
Golden Phantom (L. Fieselman)	110
Shedrow Beau (Ecoffey)	113
Armitist (No Boy)	113
Sluave Host (No Boy)	115
Never Kenge (Lively)	114
Bold Signal (Long)	115
Bim's Sister (No Boy)	110
Burck (Fieselman)	115
Fifth race, purse \$4,500, 4-year-olds and up, claiming price \$5,000, 6 furlongs.	
Flying Dale (Powell)	114
Lynnah (Fredericksen)	109
Time To Riddle (No Boy)	117
I'm Jay (No Boy)	114
Joren's Prince (Pacheco)	109
Mr. Filtz (Herrera)	114
Wilbur (No Boy)	114
War Issue (Jones)	114
Husker Ace (Munsell)	114
Joe De (Ecoffey)	114
Also: Snow Heels (Stallings) 117; Foxy Cay (Herrera) 109; Millie O. (Anderson) 114; Sissy (Powell) 114; John The Boy (Gardner) 110; speedy Recovery (Pacheco) xx102; Counterfeit (Lively) 114; Ever So Quiet (Leeling) 114.	
Sixth race, purse \$6,000, 3-year-olds, allowance, 1 mile 70 yards.	
Clorissa (Fleming)	112
Poster Painter (Munsell)	112
Jitterbug Jones (Jones)	112
Mr. Book Les (Powell)	112
Rick Way (No Boy)	112
Nickey Nruce (Lewis)	115
Sea Phantom (No Boy)	115
Acquaint (Ecoffey)	114
Rosy Devil (Caldero)	110
Seventh race, purse \$25,000 added, 3-year-olds and up the king's handicap, 1 1/16 mile.	
Boldwood (Lewis)	115
Purchaser (Lively)	115
Golden Eagle II (No Boy)	115

THE PADDOCK

By Mark Gordon
Star Sports Writer

Cows to Horses

Omaha — Cows and cow pastures have opened a golden career for J. L. Lively.

"I first began riding horses on my parents' farm in Westville, Okla.," says the leading jockey at Ak-Sar-Ben. "We used them as cow horses and I got a lot of practice riding them."

Using his "cow horse" experience, Lively began riding competitively in 1961 for local farmers in match races in secluded cow pastures in Oklahoma. He adds: "You might say I started out in the bushes — cow pastures."

But that didn't stop the diminutive jockey from moving up in the riding business. Although he admits his first years riding at recognized race tracks were less than successful, the Oklahoman has suddenly come into his own. Last year he was the second leading rider at Denver's Centennial Park and this year he placed third at Oaklawn Park in Hot Springs, Ark.

In his first season at Ak-Sar-Ben, last year, Lively placed fourth, guiding home 25 winners, 24 places and 33 shows. But that still left him well behind L. J. Durosseau, who easily captured Ak riding honors for the third straight year in 1970.

"I'm kind of surprised to be leading now — but don't forget there's still a long way to go," he says. "Sure, when Durosseau didn't come back here, it sort of left it (jockey title) more open."

Prefers Midwest Area

Durosseau, who set Ak's single season standard of 96 triumphs in 1969, is campaigning in California.

Riding for seven years, Lively has competed just once at an eastern track (Monmouth Park at Oceanport, N.J.) and he has no intention of returning.

"I was flown in just to ride in one race," he says, "But I don't care to go back again. I like it better here in the Midwest."

And that's proven by his schedule for the past two years. He begins steering horses in February until April at Oaklawn. Then this year he spent a few weeks at Fanner Park, and is now at Ak-Sar-Ben and will compete from July through September at Centennial. He plans to spend 11 days at the Albuquerque, N.M., State Fair meet and then will conclude this year with a jaunt to Sportsman's Park near Chicago.

Although Lively, 27, admits he probably wouldn't have been a jockey if he had been a little bigger, he adds that he tries to keep his weight around 109 consistently even when he's not riding.

"Oh, I get a little bigger in the winter when I'm not riding," he relates, "but I usually don't have much trouble staying down there."

'Fun To Ride'

Lively is not under contract for anyone and he prefers to keep it that way. But he is under "contract" to do the best job he can for whatever horse he is on regardless of the conditions of the race."

"To me it doesn't matter if you're riding in the feature or one of the first races (which usually carry a smaller purse)," he explains, "as long as you have a horse that likes to run, it's fun to ride."

Calling Honest Effort and Stormvogel, the best horses he has ridden at Omaha this season, Lively said he doesn't categorize animals as "dangerous" or "non-dangerous."

"It doesn't matter as long as they run right and you pace them right," he adds.

Other Ak-Sar-Ben jockeys might disagree. With Lively starting to pull away from the jockey pack, a Lively-horse (no pun intended) might be rated dangerous.

Unser's Check Far Below 500' Record Payoff

Indianapolis, Ind. (AP) — Al Unser, who won Saturday's Indianapolis 500, his second in a row, was presented Sunday night with a check for \$238,454.31 as the Indianapolis Motor Speedway had its second straight million-dollar payoff.

Unser's check was far below the record payoff of \$271,697.72 he earned for winning the 1970 race.

Tony Hulman, president of the Speedway, said that despite a sharp drop in cash accessory prizes this year, the Speedway increased its own prize checks by \$33,293 for a record-breaking total purse of \$1,001,604.22.

Hulman said the accessory prizes dropped more than \$30,000 from last year's \$205,595.

Second-place finisher Peter Revson of New York City, a member of Team McLaren which dominated the field most of the month of May, won \$103,198.24.

Third-place finisher and three-time Indy 500 A. J. Foyt Jr. of Houston, Tex., won \$64,759.24. Fourth-place finisher Jim Malloy of Denver, Colo., took home a check of \$38,669.24.

Speedway officials made three changes Sunday in race standings and studied some

possible changes in ground rules.

Twenty-eight persons—23 news media photographers, four drivers and a Speedway guard—carried momentos of Unser's record-smashing, second straight victory in the form of injuries ranging from minor cuts and bruises to severe burns and broken bones.

The most important shift from unofficial standings announced Saturday advanced 40-year-old Jim Malloy, who crashed on the pace lap last year before the race had started, from fifth to fourth place.

The shift pushed Bill Vukovich, whose father, Billy Vukovich won the 500 twice, from fourth to fifth. Chief timer and scorer Richard E. Sauer said Malloy beat the 27-year-old Vuky by 1.12 seconds when the veteran was given back a lap that had been overlooked in the preliminary scoring.

Peter Revson, who drove the only one of the favored Mark 16 McLarens that finished the race, remained in second place, 22.88 seconds back of Al Unser.

A. J. Foyt Jr. missed out on his attempt at an unprecedented fourth 500 victory but finished third, 2 minutes 1.34 seconds or more than two laps back of the winner.

The race started with an accident as the pace car, driven by Indianapolis auto dealer

Eldon Palmer, overshot the pits and plowed sideways into a photographers' stand just inside the first turn. Astronaut John Glenn, a passenger, was only shaken up. Speedway owner Tony Hulman another guest, suffered an ankle sprain.

Twenty-three of the 45 cameramen on the stand were hurt, including Dr. Vicente Alvarez, Buenos Aires physician and auto racing buff, who was given the No. 1 seat on the portable stand because of his association with the Indy race since 1958.

Dr. Alvarez, who writes and photographs for so many newspapers and magazines that he was not accredited to any single one, caught the direct impact of the car's left front wheel. He suffered a basal skull fracture and was listed in critical condition Sunday.

Mike Mosley, only severely injured driver in mishaps during the race proper, was reported in serious condition Sunday with compound fractures of an arm and a leg, and burns.

The photographers' stand, built on a flatbed trailer, has been used for years at the start when no cars are in the pits. It is wheeled out of the way after the start.

Speedway officials never expected a pace

car driver to be unable to stop in the half-mile-long pit area, even though he swerved into it at 110 miles an hour.

Al Bloemker, public relations director at the Indianapolis Motor Speedway, said the management undoubtedly would take a hard look at the whole safety picture.

There were other squabbles over rules governing the race proper.

Foyt lowered the spoiler wing on the tail of his car, designed to push downward for greater traction, during the race. The rule said such spoilers are supposed to be immovable.

Foyt said the rule didn't apply to manual changes during a pit stop and Frank Del Roy, chairman of the USAC technical committee, agreed. Foyt said the winglike tail was slowing him on the straightaways and actually was bent by the high speed air flow.

Roger Penske, who owned the Mark 16 McLaren driven by Mark Donohue and the Lola driven by Englishman David Hobbs, declared he would be back in spite of an infuriating day.

Donohue clearly was the class of the field. He drove the 66th lap at 174.961 m.p.h.

VAN BERG ENTERS KING OF THE ACTION GETTER GOING IN KING'S HANDICAP

By MARK GORDON

Charlie Nicholas', Agronomist, who triumphed in the Governors' chase nine days ago and last year, has been given second top-weight of 116 pounds. Wendell Leeling will try to guide Agronomist over the slightly longer distance than the mile and 70-yard Governors' chase.

The 5-year-old gelding has made just three starts this year after recovering from an operation last August on his stiffls on both hind legs. But he has picked up \$12,166 this year.

Last year's runner-up to Zorba II, Mr. Swinger, returns with 114 pounds and Jack Fieselman. The 6-year-old gelding won an allowance chase here May 6, finished second to Agronomist in the Governors and placed sixth in a May 15 outing.

Tripsville, who has run in the money five of six times this season at Fanner Park and Ak will tote 109 pounds and Fred Ecoffey. The only non-money appearance for Tripsville was a sixth in the Governors, but he has two

wins and two places and one third.

Other entrants include Romanullah with 112 pounds and Mike Fredricksen, and French Corners with 109 pounds.

—POSTS FINAL ROUND 67— Trevino Records Memphis Triumph

Memphis, Tenn. (AP) — Happy-go-lucky Lee Trevino shot a final round 67 and scored an easy four-stroke victory Sunday in the \$175,000 Danny Thomas Memphis Golf Classic.

The self-styled Merry Mexican from El Paso, Tex., led all the way on the warm and sunny final round and posted a 72-hole total of 268, 12 under par on the Colonial Country Club course.

Trevino picked up \$35,000 for his second victory of the year and the seventh of his relatively brief pro career.

His earnings pushed his career total to over one-half million dollars in five years on the tour and gave him \$115,785 for the year, the fourth consecutive season he's gone over \$100,000.

Trevino, the 1970 leading money winner and Vardon Trophy winner, now is second only to Jack Nicklaus on the season's money winning list.

Tied at second at 272 was a quartet of non-winning tour regulars — Jerry Heard, Randy Wolff, Lee Elder and Hale Irwin.

Heard and Wolff each scored final round 64's on the 6,466-yard par 70 layout that annually yields some of the best scores on the pro tour. Elder had a 66 and Irwin 68.

Don January, with a 67, and first round leader Larry Ziegler, who closed with a 69, were next at 273. Ken Still, with a stunning 63 and Puerto Rican veteran Chi Chi Rodriguez, 69, were tied at 274.

Dave Hill, who filed a \$1

million damage suit against the PGA and the Tournament Players Division earlier in the tournament, finished well back with a 68 for 278. Hill, the defending champion, had won this tournament three of the last four years.

The weather, warm, sunny and with practically no winds, provided almost perfect playing conditions for Trevino, who had the lead all the way.

The stocky, swarthy ex-Marine who burst into prominence with his 1968 U.S. Open victory, held a two-stroke lead starting play and didn't let it get away from him.

The closest it got was about halfway through the round when Trevino followed a birdie on the seventh hole with a bogey on the eighth, dropping him back to nine under par.

Elder and Heard, playing about a half hour in front of Trevino,

both birdied the 13th, about the same time Trevino was taking his bogey and moved to within one stroke.

But Trevino, an intense competitor despite his cheerful, non-stop talking front, took a birdie on the short, 298 yard, par four 10th hole. That gave him a two-stroke lead and it was all over.

He played it cautiously the rest of the way, and the homecoming birdies on the 13th and 18th holes, both relatively easy par fives, were just icing on the cake for the guy who once worked for \$35 a week at a desert driving range and now is more than half way to his announced goal of winning \$1 million on the rich pro tour.

Wichitans (Again) Win Great Plains Golf Classic ... BIRDIE GIVES FINE-WAITT DUO VICTORY IN SUDDEN-DEATH PLAYOFF

By HAL BROWN
Star Sports Writer

Roger Fine of Wichita tapped in a two-foot birdie putt on the first hole of a three-team, sudden-death playoff to give himself and partner Rocky Waitt the championship in the Great Plains Classic, alias the Wichita Benefit, Sunday at Pioneers Park.

Fine's putt put a quick end to the playoff involving Omahans Tom Johnson and Leo Gard and Wichitans Craig DeLongy and Gary Navarro, a playoff that began at the 16th hole for the benefit of CATV.

The three teams were tied at the end of 36 holes in the two-man, best-ball competition with seven-under-par 136s and only "inches" kept it from being a five-way playoff, involving two more Nebraska teams.

Jim Shade of Norfolk, playing with Omaha's Glen

Greenemeier as a partner, saw a putt rim the cup and stay out on the 18th Sunday, a birdie putt that would have put them at seven-under-par also after shooting the best round of the final day, a five-under-par 66.

And Lincoln's Scott Brunzell, teaming with University of Nebraska golfing teammate Rick Schultz of Omaha, saw his attempt at a birdie on the final hole slide past the edge of the cup, a putt that had it fallen in also would have put them at seven under par.

The "inches" left the Shade-Greenemeier and Schultz-Brunzell teams tied for fourth, one stroke back of the three leading teams, who were heading for the 16th tee and the playoff.

After Fine put his second shot to the 384-yard 16th hole only two feet from the pin, teammate Waitt popped, one

only 18 inches away and none of their playoff competitors were closer than 12 feet.

Waitt and Fine watched as the other four all missed on their birdie tries with Gard's 12-footer rimming the cup, but staying out.

After a lengthy study session of the short putt, Fine then tapped it in for the victory and Wichitans had the championship for the third straight year.

Fine and Waitt, who took the first round lead with a six-under-par 66 at Holmes Park Saturday, were eight strokes below par until the 17th, which they both bogeyed, dropping them back into the tie with Gard-Johnson and DeLongy-Navarro, who had finished moments earlier.

DeLongy and Navarro also had gone eight under par coming to the final hole of the

tournament after birdieing five of six holes from No. 10 through No. 15.

But they took their only bogey of the 36 hole tournament at the 18th and fell back to seven under.

Johnson and Gard gained the playoff with a bogeyless round, picking up four birdies for a 67 on the par 71 Pioneers Park course.

Greenemeier and Shade, who started the day at 71, five strokes off the pace, nearly made the playoff when they put together four straight birdies, starting at the 12th with Greenemeier getting the first two and Shade birdieing the 14th and 15th.

Shade also had birdie putts rim the cup and stay out on the final three holes.

In the handicap division, Alex Allison and Joe Herrod won for the second straight year with a 19-under-par 124

while Steve Sandelin and John Scheer were second at 125 and John and Charlie Huff third at 126.

The scoring:

Roger Fine-Rocky Waitt, Wichita 66-70-136
Tom Johnson-Leo Gard, Omaha 67-67-136
Craig DeLongy-Gary Navarro, Wichita 69-67-136
Scott Brunzell-Lincoln Rick Schultz, Omaha 68-69-137
Glen Greenemeier, Omaha 68-70-138
Steve Foulson-Gary Holland, Wichita 71-67-138
Phil White-John Irwin, Omaha 68-71-139
Frank Rose, Topeka 69-70-139
Rick Vigil-Hiram Snowden, Omaha 69-71-140
Jerry Denver-Jamie Thompson, Wichita 71-69-140
Dean Wills-Al Ludwig, Omaha 73-67-140
Randy Carlson-Denny Batliner, Lincoln 69-72-141
Nick Ondrick-Virgil Parker, Wichita 70-71-141
Lance Gise, Lincoln 70-71-141
Gale Glides, Columbus 70-71-141
Jim Tyler-Tom Tidball, Lincoln 70-71-141

Cardinal Streak Remains

By Associated Press
St. Louis' torrid Cardinals reeled off their sixth straight victory Sunday, slugging Atlanta 8-3 as left-hander Steve Carlton became the National League's first nine-game winner and Lou Brock stretched his hitting streak to 26 games.

Carlton, a 19-game loser in 1970, brought his record to 9-2 with the backing of home runs by Joe Hagie and Jose Cardenal.

Brock tripled and singled to keep his streak alive as the Cardinals boosted their East Division lead over second-place New York to two games.

The Mets bowed to San Diego 4-2, Ivan Murrell smacking a tie-breaking two-run homer in the fifth as the Padres ended a five-game losing string.

Third-place Pittsburgh ripped the Chicago Cubs 10-0 behind Bob Moose's three-hitter and an eight-run burst in the fourth.

Roberto Clemente, Willie Stargell and Bob Robertson homered in the fourth.

The Cubs' Ken Holtzman tossed three wild pitches in the inning — the second one on a two-out third strike to Richie Hebner.

Los Angeles' Willie Davis stretched his hitting streak to 22 games with a run-scoring single before the Dodgers nipped Philadelphia 2-1 on Willie Crawford's bases-loaded sacrifice fly in the 12th inning.

Cincinnati edged Houston 2-1, Johnny Bench scoring the deciding run on a seventh-inning error by first baseman John Mayberry.

Willie Mays capped a three-run rally in the seventh with his 10th homer of the season, carrying San Francisco past Montreal 5-4 in the opener of a doubleheader. The run was a 1.950th of Mays' career, moving him past Stan Musial and into first place on the NL all-time list.

In American League play, Baltimore edged Minnesota 6-5; Detroit topped Milwaukee 9-5; the New York Yankees defeated California 7-4 and the Chicago White Sox shaded Cleveland 3-2 in 10 innings.

Rain washed out the Oakland-Boston and Kansas City-Washington games.

The Orioles scored three runs in the eighth — the last one on a wild pitch by Jim Strickland — and Mike Cuellar withstood late homers by Tony Oliva and Steve Braun for his seventh victory against one loss.

Al Kaline's three-run homer capped a five-run burst in the ninth that sent the Tigers past Milwaukee.

Mel Stottlemyre's five-hit pitching and a four-run rally in the sixth paced the Yankees against California.

The White Sox broke a 2-2 tie in the 10th when Cleveland reliever Phil Hennigan walked Jay Johnstone with the bases full.

Cardinal Streak Remains

By Associated Press

St. Louis' torrid Cardinals reeled off their sixth straight victory Sunday, slaming St. Atlanta 8-3 as left-hander Steve Carlton became the National League's first nine-game winner and Lou Brock stretched his hitting streak to 26 games.

Carlton, a 19-game loser in 1970, brought his record to 9-2 with the backing of home runs by Joe Hagge and Jose Cardenal.

Brock tripled and singled to keep his streak alive as the Cardinals boosted their East Division lead over second-place New York to two games.

The Mets bowed to San Diego 4-2, Ivan Murrell smacking a tie-breaking two-run homer in the fifth as the Padres ended a five-game losing string.

Third-place Pittsburgh ripped the Chicago Cubs 10-0 behind Bob Moose's three-hitter and an eight-run burst in the fourth.

Roberto Clemente, Willie Stargell and Bob Robertson homered in the fourth.

The Cubs' Ken Holtzman tossed three wild pitches in the inning — the second one on a two-out third strike to Richie Hebner.

Los Angeles' Willie Davis stretched his hitting streak to 22 games with a run-scoring single before the Dodgers nipped Philadelphia 2-1 on Willie Crawford's bases-loaded sacrifice fly in the 12th inning.

Cincinnati edged Houston 2-1, Johnny Bench scoring the deciding run on a seventh inning error by first baseman John Mayberry.

Willie Mays capped a three-run rally in the seventh with his 10th homer of the season, carrying San Francisco past Montreal 5-4 in the opener of a doubleheader. The run was a 1.95th of Mays' career, moving him past Stan Musial and into first place on the NL all-time list.

In American League play, Baltimore edged Minnesota 6-5; Detroit topped Milwaukee 9-5; the New York Yankees defeated California 7-4 and the Chicago White Sox shaded Cleveland 3-2 in 10 innings.

Rain washed out the Oakland-Boston and Kansas City-Washington games.

The Orioles scored three runs in the eighth — the last one on a wild pitch by Jim Strickland — and Mike Cuellar withstood late homers by Tony Oliva and Steve Braun for his seventh victory against one loss.

Al Kaline's three-run homer capped a five-run burst in the ninth that sent the Tigers past Milwaukee.

Mel Stottlemyre's five-hit pitching and a four-run rally in the sixth paced the Yankees against California.

The White Sox broke a 2-2 tie in the 10th when Cleveland reliever Phil Hennigan walked Jay Johnstone with the bases full.

OTB Still Anticipates Team Sport Expansion

NEW YORK (AP) — The head of New York City's Off Track Betting Corp., answering the objections of the commissioners of professional sports, says he will go ahead with plans to extend OTB to team sports.

Howard Samuels charged Saturday that the commissioners are "not dealing with the real world and real people" as he outlined his betting plan for sports such as football and baseball.

He was reacting to the unified stand against such extension last week by commissioners Pete Rozelle of the National Football League, Bowie Kuhn of major league baseball, Walter Kennedy of the National Basketball Association, Jack Dolph of the American Basketball Association and Clarence Campbell of the National Hockey League.

Samuels still would need legislative approval, and the earliest that could come would be January 1974.

Samuels who said he would welcome a change to meet with the commissioners and make his case for OTB in other sports than horse racing, indicated he was thinking in terms of pool cards, similar to those being used illegally during the football season and legally published in England for soccer. He insisted that OTB could only help sports by wiping out undercover gambling.

He said he sympathized with the commissioners in their concern about the "unknown influence of legalized gambling on their respective sports," but maintained that legal, government-operated betting on sports would reduce the danger of "fixed events."

"Just as legalized pari-mutual betting on horses reduced illegal gambling on horses and the fixing of horse racing, so can pari-mutual betting on sports under government control reduce the power of organized crime and the dangers of fixing sports events," he said.

He pointed out that widespread betting has existed in

team sports for a long time, and estimated the figure at \$20 billion a year, representing 80 percent of the income of organized crime.

OTB began in New York City this spring by taking bets on harness races at Roosevelt and Yonkers raceways.

Canonero II Trains Again

New York (AP) — Canonero II, suffering from a skin rash and foot infection, galloped 2 1/2 miles on Belmont Park's inner turf course on a rainy Sunday morning as he resumed preparations for Saturday's Belmont Stakes and his bid for the Triple Crown.

Earl Whyte, a 135-pound exercise boy, was in the saddle as Canonero II galloped, under the watchful eye of trainer Juan Arias, for the first time since Thursday.

Saturday, Venezuelan veterinarian Dr. Jose Hernandez-Rosal reiterated the evaluation of Dr. William Q. Reed that the Kentucky Derby and Preakness winner had a skin rash and an infection of the right hind foot.

"The skin rash is of no consequence and is clearing up," said Hernandez-Rosal. "The foot infection is minor and has responded to treatment."

The skin rash began in Baltimore before the Preakness.

"Canonero is a fit horse," Arias said again Sunday.

Canonero II's owner, Pedro Rodriguez, was to arrive here from Venezuela Sunday. Jockey Gustavo Avila was due Monday.

World Title, 600 Claimed By Porsche

Adenau, Germany (AP) — Porsche clinched the world manufacturers title for the third straight year Sunday with a 1-2-3 finish and a fifth consecutive victory in the 600-mile sports car race on the Nuerburgring circuit.

Gerard Larousse and Vic Elford drove the winning Martini car, a Porsche 908-03 prototype, finishing in five hours, 51 minutes 49.3 seconds for an average speed of 102.84 miles an hour.

Pedro Rodriguez of Mexico and Jo Siffert of Switzerland were second in a Gulf Porsche 908-03 in 5:51.59.3, and Helmut Marko of Austria and Gijis Van Lennep of the Netherlands were third in another Martini racing team 908-03.

Quarrie Not Tired In Modesto

Modesto, Calif. (AP) — Just when Don Quarrie should have been dead tired, he found enough speed to win one of the most exciting races of the 30th California Relays.

The former University of Nebraska runner from Jamaica caught University of Southern California sprint star Willie Deckard on the final leg of the 880-yard relay and gave the Southern California Striders a 1:22.3 victory Saturday night.

Earlier, in the 9-hour meet, Deckard anchored USC's 440 relay team to a 39.4 win, equalling a meet record. Quarrie carried the Strider's baton across the finish line one-tenth of a second later. And the Jamaican was fourth in the 100 yard dash, won by Madagascar's Jean Louis Ravelomanantsoa in 9.3.

The Striders' 880 relay time was the second fastest of the U.S. track season and broke a meet record. Two other Jamaicans, Lennox Miller and Mike Fray, and Jim Kemp completed the team. Quarrie's finishing leg was timed unofficially at 20.3.

Southern University sophomore Rod Milburn won the 120 high hurdles, beating a field that included Olympic champion Willie Davenport, and was named the meet's outstanding performer. He broke the meet record with his 13.4 clocking in the trials and won the finals in 13.5.

Another meet record fell in the two-mile run, where Arne Kvalheim of the Oregon Track Club won in 8:30.2, the best time in the nation this year.

One of several world record holders entered here, Jorma Kinnunb of Finland, didn't even place in the javelin. All three of his tosses were disqualified, including one that went about 280 feet but landed out of the throwing area.

Kinnunb was disappointed but vowed to reach at least 290 feet—14 under his world mark—at next Saturday's Kennedy Games in Berkeley, Calif.

Most of the winners here, including Randy Matson, who had a 67-10 shotput, will also be at the Berkeley meet.

Numata Defends Title

Hiroshima, Japan (AP) — Japan's Yoshiaki Numata successfully defended his World Boxing Council junior lightweight title for the third time Sunday night with a dull, but unanimous 15 round decision over Lionel Rose of Australia. There were no knockdowns.

SYLVESTER . . . with wife at home.

Argentine Kidnapers Free British Consul

Rosario, Argentina (AP) — Stanley M. F. Sylvester was released Sunday after a week of captivity by guerrilla kidnapers and returned home to his family, casually stopping to buy a newspaper on the way.

"Please don't ask me any questions, I cannot compromise myself," Sylvester, 58, told newsmen outside his home in the wealthy Fisherton suburb here. "They treated me very well."

Sylvester, the honorary British consul here, was embraced by his wife, Sally, and two sons, Jaime, 30, and John Stanley, 28. He was wearing a red pullover sweater and gray slacks.

Sylvester's release came after the Swift De La Plata meat packing company, of which he is a director, distributed \$62,500 worth of food, blankets and clothing to shantytown poor in Rosario, meeting the major ransom demand of the leftist kidnapers.

First to see Sylvester after his release was taxi driver Santiago Mugeta, 47, who said the kidnap victim hailed his taxi in downtown Rosario shortly before 8:30 a.m.

"He asked me to stop so he could buy a newspaper," Mugeta told newsmen later. "After he had the newspaper, he asked me if I knew who he was. I didn't and then he said: 'I am the consul, and they treated me very well.'"

An hour after reaching home, Sylvester appeared in the garden of his home for photographers. Reporters, kept at a distance by police, shouted questions to him, but he ignored them. Police said he would have no statement for the time being.

'Prince' Visits Hanoi

Tokyo (UPI) — Laos' "Red Prince" Souphanouvong visited Hanoi at the invitation of North Vietnamese President Ton Duc Thang, the official North Vietnamese radio said. The agency said the Laotian Communist leader flew into Hanoi but did not say whether he had left.

5:22 p.m., 38th and Cleveland, carburetor backfire, small damage.

5:27 p.m., 168 Van Dorn, rescuistcar.

EVERYBODY'S MONEY: Customer's Power Cited Over Private Enterprise

By Meryle S. Rukeyser

Even in these days of divisiveness, it would seem that there should be unanimous support of consumerism which purports to give the customer full value. Certainly the final social sanction for private enterprise is benefit to the customer. But when emotionalism embraces a popular movement, there is a risk of beclouding goals.

Certainly none is so reactionary as to try to perpetuate the ancient slogan "caveat emptor" (let the buyer beware.) There is virtually universal desire these days to let the seller also beware. Where some part company from the consumerism activists, however, is in allocation of the blame for defective and overpriced goods. The conflict is between those who assert that the customer is the boss, and those who lament that the customer is a helpless victim.

Where does the truth lie? It is unscientific to judge a business enterprise either by ex parte attacks by enemies of the system or by the self serving cliches of subservient hired practitioners. Mature executives, aware of the high cost of advertising and selling, treasure their customer list as a major asset. Frequently, the expense of wooing customers yields a profit only through repeat orders. Thus the prudent businessman strives for customer loyalty.

Customer's Power

The customer actually holds a life and death power over the businessman. The customer decrees success for one concern by buying its goods and services, and failure for another by the undramatic act of turning thumbs down on its offerings.

Frequently in audience reaction periods after lectures, some one asks: "Though we recognize the customer's power over small or moderate sized companies, what can the consumer do against a big 'monopoly'?" The economics are similar for both important and inconsequential concerns.

In 1927, the Ford Motor Company fell from grace because the founder erred in assuming for too long that he was able to dictate to the customer. Henry Ford used to wisecrack: "The public can have any car it wants so long as it is black in color and simple in design". But customers tired of this, and eventually stayed away in droves from the show rooms which displayed the traditional Model T. Taste had turned to color and better styling. The biggest manufacturer shut down, and, after many months

of retreating, bowed to his majesty, the customer, by offering the more attractive Model A. Again in the post-World War II period, all the Ford resources were insufficient to jam the Edsel down the throats of unwilling buyers.

Other Giants

Other giants of the industry in this post-war period were also rebuked for temporary insensitivity to customer desires. With increased labor costs and bigger and more complicated cars, the price of automobiles began to go through the roof. Outsiders asked the titans of the industry why they didn't diversify with small economy cars. The somewhat arrogant reply was that they knew best what the customers wanted. But the record disclosed that there were a substantial number of dissatisfied persons who were importing cars. Eventually, the domestic industry, hearing its master's voice, began to compete with foreign compact models.

The gray area for probing is why industry doesn't achieve a higher level of customer applause. One hurdle is inflation, which gives the customer less goods for more money. Inflation, of course, springs from governmental fiscal and monetary policy. And labor unions, harassed by depreciation of money wages, accelerate the troubles whenever they arbitrarily use their fiat powers conferred by Congress to demand increases in money wages irrespective of improvement in productivity.

Related to inflation is the psychological letdown of efficiency when affluence endures for extended periods. With increased reliance on highly productive machines, there has been a decline in pride in workmanship. Vagaries of class warfare provide a rationalization for holding back of effort. But the mild recessions has been bringing correctives, and cost reducing techniques have been introduced. Thus the customer may look forward for the near term at least to participating in the benefits.

(Mr. Rukeyser will be pleased to receive inquiries from readers concerning writing problems. Letters with stamped, self-addressed envelopes should be sent in care of The Lincoln Star. If of general interest will be answered in subsequent issues. If the extent time permits, will be handled by mail.)

THE JACKSON TWINS by Ed Strops

RIP KIRBY by John Prentice & Fred Dickenson

THE RYATT by Cal Alley

DID YOU KNOW THIS? IT'S A FACT:

The Philippines' population has doubled in 25 years and now stands at 40 million.

Crown Center, Kansas City's "city within a city" for 8 residents, will take 15 years to complete, at a cost of \$200 million.

Union College, Schenectady, N.Y., was the first college in America to introduce science courses as an alternative to the old classical curriculum.

DAILY CRYPTOQUOTE

One letter simply stands for another in this example. A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

Here is a practical little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is six or more, subtract 4. If the number is less than 6, subtract 3. The result is your key number. Start at the upper left corner of the rectangle and check every one of your key numbers left to right. Then read the message the letters under the checked figures gives you.
